

The following inventory provides a summary by county of the most used microfilm and original land records available at the Kentucky Department for Libraries and Archives. The microfilm guide and original record transmittals should be consulted if this inventory does not include the land records you are looking for. While this inventory includes both microfilm and original records, the original records listed only cover years unavailable on microfilm or any records of the same type that are different than those on microfilm. For Kentucky Land Office Records, consult the Kentucky Land Records binder in the Research Room or the Kentucky Land Records Research Guide available on KDLA's website. For further questions please contact the KDLA staff by phone at (502)-564-1770 or email at kdla.archives@ky.gov.

* There are a few County Land Ownership Maps on microfiche. These records are available in the second drawer of the spindex microfiche cabinet in the Research Room storage room.
