Kentucky in Wood

In 1981 the Kentucky Department for Libraries and Archives (KDLA), in cooperation with the Kentucky Arts Commission, held a competition to commission a work of art to be made of native Kentucky woods for the lobby of KDLA's new building. The commission was for \$15,000 and was open to all Kentucky artists.

The winning entry was created by Murray artist Bobby Falwell and named *Kentucky in Wood*. He created a 24-foot long, 12-foot high abstract representation of the state. The piece is composed of six sections and includes seven stylized life-sized figures representing the people of Kentucky. The sculpture and figures incorporate 26 native Kentucky woods. The woods were donated by Dr. Thomas D. Clark, noted Kentucky author, historian and teacher, and members of his family.

It features several stylized human figures integrated into a larger, flowing wooden structure, all made from various types of native Kentucky wood. The sculpture is displayed in a well-lit indoor space, likely a library lobby.
