Local Government General Records Retention Schedule

This retention schedule may be used by all local governments and their agencies and offices. It lists those records that any local agency may create or receive in the course of daily business. For a local agency to have an effective records management program this retention schedule should be used on regular basis, along with the agency specific schedule for that agency. *For example: If you are a sheriff or a city you would use the County Sheriff Records Retention Schedule or the Municipal Government Records Retention Schedule and the Local Government General Records Retention Schedule respectively.* This retention schedule has been approved by the State Libraries, Archives, and Records Commission in accordance with KRS 171.410 – 740. This approval provides the legal basis for local agencies to apply this schedule to their records management needs.

This retention schedule also includes record series listings for

- police departments
- fire departments
- emergency medical services
- 911

We have included these because they may be part of county governments, city governments or special districts.

GLOSSARY OF TERMS For Records Retention Schedules

- Permanent (P)** Denotes records appraised as having historical, informational or evidential value that warrants preserving them permanently (forever) beyond the time needed for their intended administrative, legal or fiscal functions. These records may be destroyed **only** after the written permission is given by the State Archivist and after they are microfilmed according to specifications published by the Department for Libraries and Archives.
- Confidential (C)** Records deemed unavailable for review by the public after applying the state’s Open Records Law (KRS 61.878) and other state and federal statutes and regulations with specific restrictions. The (C) is added to appropriate record series descriptions as a reminder to agency personnel and does not bear any legal status. **It is important to note that the local government head has the responsibility of knowing all the appropriate confidentiality laws, statutes and regulations that apply to the records maintained in their office and to see that they are enforced.** Even though a record series may or may not be marked confidential on a records retention schedule, contradictory laws or regulations that are approved after the retention schedule has been completed may not be reflected but must be honored.
- Vital Record (V)** Records that are essential to the continued functioning of the local government during and after an emergency, as well as those records that are essential to the protection of the rights and interests of that local government and of the individuals for whose rights and interests it has a responsibility. Local Government should have a plan in place to identify those records and provide for their protection in case of a disaster (fire, flood, earthquake, etc.).
- Duplicates** Duplicate records that have not been assigned a retention period and function solely as reference and informational material may be destroyed when no longer useful. If the duplicate is considered the “copy of record”, it must be retained according to the retention period on the schedule.
- Destruction Certificate** A destruction certificate should be used to document the destruction of public records and may be found, along with the instructions at the Kentucky Department for Libraries and Archives website (www.kdla.ky.gov). It should be used when destroying records according to the appropriate records retention schedule. No record created or maintained by a local government agency may be destroyed unless it is listed on the retention schedule and a destruction certificate completed and the original copy sent to the Department for Libraries and Archives (Department).
- After Audit** A term used in the disposition instructions to denote a records series that shall only be destroyed after the retention period has expired and an official audit has been performed. Example: 3 years and audit: This means that the record series must be kept for 3 years after last activity or date in a file. The record must have gone through the annual audit before it can be destroyed.

LOCAL GOVERNMENTS
County/Local: General Schedules
Administrative

Series	Records Title and Description	Function and Use
L4954	Official Correspondence	This record series documents the major activities, functions, events and programs of a local government and in addition helps in the establishment of an administrative history. It provides a record of policy evolution and formulation, how and why decisions are made, and how these decisions impacted the local government and the public at large. This series is usually created by the chief administrative officer of the local government and also by administrative heads of official departments, commissions, boards and agencies within the local government. The series provides adequate and proper documentation of agency matters, as required in KRS 171.640. Official correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email.
	Access Restrictions	None
	Contents	Official correspondence is incoming and outgoing correspondence that may consist of: letters, notes, memoranda, directives, policy statements, and other information commonly found in the body of the message and/or any attachments to the message. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file.
	Retention and Disposition	Retain permanently.
L4955	Routine Correspondence	This record series can be found at all levels of an organization and documents business related correspondence that is not crucial to the preservation of the administrative history of an agency. It consists of correspondence that is of a non-policy nature and deals only with the day-to-day, general operations of an agency. Routine correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email.
	Access Restrictions	None
	Contents	Routine correspondence is incoming and outgoing correspondence that may consist of: letters, notes, postcards, memoranda, announcements, or other information commonly found in the body or the message and/or any attachments. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file. General correspondence does not include: non-business related messages, spam and junk mail, duplicate copies of general announcements. (See series L4956 Informational and Reference Material and L5866 Non-Business Related Correspondence)
	Retention and Disposition	Retain for two (2) years, then destroy.

	Retention and Disposition	Retain for five (5) years after claim is settled. If a minor, destroy when he/she reaches twenty-three (23) years of age.
L5848	Insurance Claims File (Non-Liability General and Auto) (V)	This record series documents claims where a local government vehicle has been damaged or has damaged government property. This is a demand for payment for insured loss to physical property, independent of liability or bodily injury.
	Access Restrictions	None
	Contents	This record series contains the , summary of claim, type of damage, date, time, police report, if needed, and other supporting documents.
	Retention and Disposition	Retain for two (2) years, then destroy.
L5866	Nonbusiness Related Correspondence	This record series documents paper correspondence and email that is commonly found at all levels of an organization and is not related to agency business. It consists of messages of a purely personal nature, spam, and other unsolicited correspondence. (See contents for more detailed descriptions.) Agency staff should destroy or delete these records upon receipt because they are not business-related, and because agencies may be required to produce them under legal orders or open records requests. This type of correspondence is problematic for many reasons: SPAM and unsolicited messages (1) tend to exist in tremendous quantities, which can overwhelm an email system; (2) are usually unwanted; (3) can be offensive; and (4) are potentially virus laden. Personal messages (1) take away from an employees work time; (2) may be interspersed with business related email, making management difficult and exposing the agency to potential embarrassment and legal risk; and (3) may be a violation of the agency's email and Internet acceptable use policy . Given the nature of email, the existence of this type of correspondence is inevitable and agencies are encouraged to train employees to delete it as soon as possible. See "Guidelines for Managing Email in Kentucky Government" for more information on managing email correspondence.
	Access Restrictions	None
	Contents	Nonbusiness related correspondence is incoming and outgoing correspondence that may consist of: Paper records that may be personal, unsolicited and unwanted that has nothing to do with agency business. Email that may be: (1) Personal messages: While a certain amount of personal material maybe acceptable, abuse of the system can lead to disciplinary action and even dismissal. All agencies should have an appropriate use policy that determines the amount of personal messages acceptable on the system. (2) SPAM is the term for electronic junk mail. It is completely unsolicited and unwanted. It can be offensive in nature, can carry viruses and is sent as a way of disrupting normal business operations.(3) Unsolicited messages are email that may be unwanted, but is somewhat business related such as advertising from vendors and non-work related email from coworkers such as jokes and forwards, miscellaneous news articles, non-work related announcements, etc.
	Retention and Disposition	Destroy all nonbusiness related records and delete all non business related email as soon as possible.

LOCAL AGENCY RECORDS RETENTION SCHEDULE

LOCAL GOVERNMENTS County/Local: General Schedules Administrative

Series	Records Title and Description	Function and Use
L6350	Maps (V)	This record series documents maps, intended for public distribution, which consist of images and/or data plotted to show geographic points at which various objects, incidents or phenomena occur across the local coverage. Examples of these include roads; parcels; infrastructure; boundaries, zones and districts; topographical or geological features; recreational trails; or cemeteries in the coverage area (city, county, region). These maps may be maintained in paper or in electronic format. Electronic maps consist of static images or dynamic packages produced by a Geographic Information System (GIS). These GIS databases may be unique to one local agency or developed and maintained through a cooperative effort of several agencies (public and private) across a city, county, or region. In these cooperative systems various entities feed data into layers that are linked to detailed attribute information or descriptions stored in a database. The GIS software access this integrated graphic and attribute information to support all mapping, geographic query, and analysis applications. (For more detailed information about GIS databases, see attachment). Some of this data may be shared or made available through Internet mapping applications on the local level and the KYGEONET, the Commonwealth's enterprise geographic information system. (The KYGEONET is described in Series 05431, scheduled under the Division of Geographic Information.)
	Access Restrictions	None
	Contents	This record series may contain: Surveys, plats, maps, plans, drawings, and images. GIS databases contain: spatial coordinates; plotted images and/or other data. Large GIS databases may contain raster data (images) and vector data (plotted points) in various layers organized into categories such as: Parcel; Centerline; Aerial; Building; Critical Infrastructure (water/sewer); Topology/LiDAR; Drainage; Zoning; and Voting Precincts. GIS databases will also contain appropriate metadata.
	Retention and Disposition	Agencies should capture one (1) copy (paper or digital) of static maps. Duplicate copies and copies made for internal reference may be destroyed when no longer needed. Agencies should take periodic snapshots of GIS data. To help determine rate and methods of capture, please contact KDLA Archives and Records Management Division staff.
L6647	Special Permits	This record series documents the application for permits for events that will be taking place in the public arena. Examples are parades, festivals, temporary retail outlets and others.
	Access Restrictions	None
	Contents	This record series may contain: Name of applicant, description of activity, date and signature.
	Retention and Disposition	Retain for two (2) years, then destroy after audit.
L6648	Incident and Accident Reports (V)	This record series documents incidents, accidents and/or complaints. The information is used to inform the administration of an incident/accident/complaint so management can take actions to prevent similar incidents in the future. It alerts administration and the agency's insurance provider to a potential claim and the need for investigation. Additionally, OSHA requires agencies with more than ten employees to maintain a record of occupational injuries and illnesses.
	Access Restrictions	KRS 61.878 (1) (a) Personal Information
	Contents	This record series may contain: Name, address, phone number, age, sex, and social security of person involved, Date, time and exact location of incident, type of accident, incident/accident specifics, if an employee was involved, the name and their employment history, a description of incident/complaint, action taken by staff members, witness name, phone number and address, medical follow-up, type medical treatment sought (if any), dates of treatment, treating physician, and address, dates off work and return to work and if duties restricted and related information.
	Retention and Disposition	Retain for five (5) years after accident/incident occurred for adults. For children, retain until age eighteen (18) years plus five (5) years or until litigation is complete, whichever is longest.

LOCAL AGENCY RECORDS RETENTION SCHEDULE

LOCAL GOVERNMENTS County/Local: General Schedules Administrative

Series	Records Title and Description	Function and Use
L6659	Open Records Appeals to the Office of the Attorney General	This record series documents appeals to the Office of Attorney General concerning requests made for public records under Kentucky's Open Records Law (KRS 61.870 - 61.884). If a public agency denies a request for public records, the requester may file an appeal with the Attorney General for review of the agency's action. The Attorney General will review the appeal and issue a decision stating whether the agency violated the Open Records Act. The Attorney General will mail a copy to the agency and a copy to the person who requested the disputed records.
	Access Restrictions	None
	Contents	This record series may contain: Date, signature of the Attorney General, signature of Assistant Attorney General, the appeal letter, public agency response, notification to agency of receipt of open records appeal, response of public agency to the appeal, and the decision.
	Retention and Disposition	Retain for five (5) years, then destroy.
L6660	Sign-In and Sign-out Log	This record series documents those visitors, employees, vendors and others who come into a local government agency, including law enforcement, at any given time. This is used to verify these people are on the premises at any given time and may be used to track their whereabouts. Any person entering this government building may be asked to wear a ID badge after signing in and return it when leaving. This is mainly for security.
	Access Restrictions	None
	Contents	This record series may contain: Name of the visitor, the time of arrival and departure, the purpose of the visit, the persons or places to be visited, and may include proof of identity and comments.
	Retention and Disposition	Retain for thirty (30) days, then destroy.
L6670	Fleet Tracking/Navigation Record (GPS)	This record series documents data from navigational and tracking devices, including GPS (global positioning system), automatic vehicle locators (AVL) uploaded to the data management information systems that local government agencies use to track and verify location of vehicles and delivery of services. These are used extensively by law enforcement, EMS, Public Protection and Public Works. The data is integrated with data storage information systems and maintained on a server which is typically backed up daily.
	Access Restrictions	None
	Contents	This record series may contain: Date, time, resource and service information, latitude and longitude coordinates, vehicle identification and other position information.
	Retention and Disposition	Retain for one (1) year, then destroy.

LOCAL AGENCY RECORDS RETENTION SCHEDULE

LOCAL GOVERNMENTS County/Local: General Schedules Administrative

Series	Records Title and Description	Function and Use
L6671	Real Estate Appraisals (Not Acted Upon)	This record series documents the formal written estimates of value (appraisals) for real estate property where a local government agency has a possible interest in purchasing, but these appraisals are not acted upon for any number of reasons.
	Access Restrictions	None
	Contents	This record series may contain: Property address and legal description, description of improvements, photos of the property and improvements, sketch of the parcel of land, public or private land use restrictions, analysis of the best use of the land, valuation methodology used to determine value, market value, the value of the buildings on the land, appraisers information (company name, contact information) and related information.
	Retention and Disposition	Retain for one (1) year, then destroy.
L6686	Material Safety Data Sheets (MSDS)	This record series documents and informs employees of hazardous chemicals that are used by the agency. The Occupational Safety and Health Administration sends the data sheets to each respective agency, which is then responsible for making them available to staff. Every employee has the right to know what chemicals he or she is being exposed to, and the possible side effects. In addition, personnel need to know what procedures to take if an accident occurs, to safely dispose of the chemicals or to transport them. It also provides other pertinent information about the chemicals, including flammability rating, boiling point, melting point, solubility in water, appearance and odor, and emergency telephone numbers.
	Access Restrictions	None
	Contents	This record series may contain: Chemical control program policies procedures; name of chemical; chemical properties; hazards; first aid; control methods; special precautions; suppliers name; issue date of sheet.
	Retention and Disposition	Retain for thirty (30) years after issuance of data sheet, then destroy.
L6687	Organizational Charts	This series documents the organizational structure of agencies at various stages of their evolution. Organizational charts generally reflect all administrative units within local government and their functions. Additionally, the charts may identify by name and title those who manage the units and the individual staff responsible for specific activities, programs and functions within the agency. The series serves as representation of the organizational changes within an agency over time.
	Access Restrictions	None
	Contents	This series may contain: Date; agency; divisions; branches; sections; names of unit heads; individuals responsible for activities.
	Retention and Disposition	Retain one (1) copy of each revision in the agency permanently. Excess copies may be destroyed when no longer needed.

L4675	Warrants of Arrest File (Felony/Misdemeanor Served/Un-served). (V)	This record series documents warrants for arrest. A warrant of arrest is a judicial writ authorizing an officer to take an individual into custody. The serving process for warrants varies by locality. In many counties the process is as follows: Felony warrants are issued by the commonwealth attorney based on a grand jury indictment. Misdemeanor warrants are issued by the county attorney. (Bench warrants are issued by the district/circuit court judge if an individual who has been subpoenaed did not appear.) Warrants are sent directly to the county sheriff to be served or they can be held by the issuing authority until they are ready to be served. The sheriff executes the warrant of arrest by locating and arresting the individual named therein. After the arrest the sheriff returns the original warrant to the court. He may retain a duplicate of the warrant for his files. This duplicate of served warrants is possibly useful as a reference to the sheriff for up to one year. The court retains the record copy of served warrants in the case file. If warrants are not served (the sheriff was unable to locate named individual, time expired, case was dismissed, etc.), the sheriff will return the unserved warrant to the issuing authority (commonwealth attorney or county attorney). Depending on locality, unserved warrants may be returned to the circuit court clerk.
	Access Restrictions	None

	Contents	This record series may contain: Date, time, area placed, and amount of rainfall.
	Retention and Disposition	Retain for five (5) years, then destroy.
L6326	Daily Reports	This record series documents all daily reports by the treatment stations. These include operation of each pump station throughout the government area. By doing this daily report the pump stations are monitored to ensure they are operating normally without incident. This, in part is a preventive measure to make sure that overflows are avoided and that there are no unauthorized spills. These reports include operators check out report, daily operational report for plants (pumps, gauges etc.), daily maintenance reports, daily lab reports, daily flow readings, daily mechanical check out sheets for pump stations, pump station overflow/bypass reports which documents over flows at any of the pump stations(70 at the moment) throughout the government area. All the pump stations are automated in the pumping of sewage. A telemetry system is in place at all pump stations which sends flow/performance data and alarm situations to the central office. All major stations are checked and maintained on a daily or twice per day frequency. These reports are sent to the Division of Water and Division of Wildlife in case of overflows. Many of these reports are made a part of the Wastewater Treatment Plant Discharge Monitoring Report(DMR) that is sent to the Division of Water and the EPA.
	Access Restrictions	None
	Contents	This record series may contain: Start time and date , name of pump station, name of treatment station, name of person submitting the report, statistical information, and readings.
	Retention and Disposition	Retain for three (3) years, then destroy.
L6327	Flow Charts - Pump Stations	This record series documents the amount of flow at each of the pump stations. This gives a picture over time about the amount of discharge and at what time. There is a chart recorder at each pump station. This shows if there is an overflow or by pass.
	Access Restrictions	None
	Contents	This record series may contain: Date, time, flow information.
	Retention and Disposition	Retain for five (5) years, then destroy.

L6328	Tier II Hazardous Chemical Annual Report	This record series documents chemicals used or stored during the previous year. The amounts that trigger Tier II reporting are based on the maximum amount of the substance present at the site at any time. This is a requirement by the Emergency Planning and Community Right to Know Act. These chemicals may have an immediate health hazard, delayed health hazard, fire hazard or reactive hazard. This report is sent to the Environmental Protection Agency, state authorities and the local fire department.
	Access Restrictions	None
	Contents	This record series may contain: Chemical name, location, amount present, waste treatment/disposal methods, and hazards.
	Retention and Disposition	Retain for five (5) years, then destroy.
L6329	Flow Reports of Incoming Sewage - Special Users	This record series documents the flow for special users. This a report of the operations of five pump stations where information is sent to the Div. of Revenue so that private companies can be billed. This flow from these special users is more than normally released. The five private enterprises are: Blackburn Correctional, Keeneland, Horse Park, Spindletop and FMC.
	Access Restrictions	None
	Contents	This record series may contain: Name of the user, pump station, date, time and amounts.
	Retention and Disposition	Retain for three (3) years, then destroy.
L6330	Calibration/Inspection Report	This record series documents that periodic calibrations and /or inspections are completed for meters , fire extinguishers, leak detection equipment, and crane and hoist systems. This is done as part of the preventive maintenance program and to ensure the accuracy and safety of the equipment.
	Access Restrictions	None
	Contents	This record series may contain: Item inspected or calibrated, date, time, certification by inspector and any adjustments made.
	Retention and Disposition	Retain for three (3) years, then destroy.
L6331	Operation and Maintenance Manuals for Wastewater and Water Treatment Plant (V)	This record series documents maintenance manuals and is used by the operation and maintenance personnel for water treatment plants. It gives suggestions and recommendations for most efficient operation, management and maintenance of the facility. The appendix to this manual contains plans/drawings showing the location and configuration of lines, fittings and processes. Pages are added or deleted periodically to revise and update this manual.
	Access Restrictions	None
	Contents	This record series may contain: Permits, plans/drawings showing the locations, configurations of the lines, fittings and processes; bench sheets, records of laboratory analysis; operators daily log, construction records, tables of operation, forms, purchase order forms and agency report forms and related information.
	Retention and Disposition	Retain permanently.

L6332	Compliance Monitoring Records (V)	This record series documents that staff at regulated facilities verify and report compliance with environmental standards and permitted pollution limits as prescribed by law. Facilities are required by regulation or by permit to meet certain environmental standards. Records in this series document the environmental monitoring (air quality source sampling) performed to show compliance with these standards at regulated facilities. Departmental staff evaluates the monitoring results and supporting documentation to determine if limits have been exceeded and to determine if proper protocol was followed in gathering the results. If the report indicates violations of a required environmental standard, the issue may be addressed by the agency through an enforcement action.
	Access Restrictions	None
	Contents	This record series may contain: Dates, facility names and addresses, monitoring data, compliance reports, chain of custody records, lab sheets, sampling plans, and related correspondence
	Retention and Disposition	Retain for ten (10) years, then destroy.
L6333	Notification and Complaints Records (V)	This record series documents reporting requirements. KRS 224 requires that regulated entities report any release or threatened release of pollutant(s) into the environment in such quantities or concentrations as to cause or threaten to cause an imminent and substantial danger to human health and/or to the environment. Reports of these releases or threatened releases are considered notifications. This series documents all correspondence between the state EPA I staff investigating the notification/complaint and the parties involved in the investigation. It also documents all inspections performed as a result of the notification/ complaint and documents all actions the state EPA and regulated Metro Govt took in response to the notification/complaint.
	Access Restrictions	None
	Contents	This record series may contain: Name and address of entity having release or threatened release; entity identification number ; notification reports; complaints reports; emergency response reports; photographs; and supporting documentation.
	Retention and Disposition	Retain for ten (10) years, then destroy.
L6334	Enforcement Records (V)	This record series documents the administrative and judicial process employed by the state EPA to ensure that an entity returns to compliance with Kentucky environmental requirements. These records also document assessed penalties associated with noncompliance as provided in KRS 224. This series includes the records of facility's violations of state or federal regulations that were identified by the agency. . These records document the state EPA's efforts to return the facility to compliance and to assess penalties to the entity or entities responsible for the violation(s). Agreed Orders, Demand Letters, and other correspondence with responsible parties will be included in this series.
	Access Restrictions	None
	Contents	This record series may contain: Notice(s) of Violation; Follow-Up Inspection Reports; Referrals to Enforcement ; Demand Letters; Agreed Orders: Enforcement Referrals to the Office of Legal Services; Letters of Agreement, Administrative Proceedings, and judicial proceedings.
	Retention and Disposition	Retain permanently.

L6335	Compliance Deficiency Notification Records (V)	This record series documents an entity's violations of Kentucky's environmental statutory and regulatory requirements. The documentation will outline remedial measures and/or actions to ensure a return to compliance. These series will include notices of violation, letters of warning, and supporting documentation. These documents usually represent initial attempts to return a facility to compliance prior to referring the violations to the state's EPA Division of Enforcement.
	Access Restrictions	None
	Contents	This record series may contain: Name of entity in violation; identification number of entity, letters of warning, notices of violations, violation determinations, follow-up inspection reports and related correspondence.
	Retention and Disposition	Destroy ten (10) years after case closure.
L6336	Federal Assistance Review Records	This record series documents proposed projects being conducted by Metro Government and are also seeking federal financial assistance from the Federal Environmental Protection Agency. The federal government requires that all requests for federal financial assistance be routed through the state clearinghouse located in the Governor's Office for Local Government. The state clearinghouse then evaluates these projects and determines whether they could have an environmental impact. If so, the documents are routed to the DEP for review and recommendations. These records document the Department's reviews and recommendations of projects assigned to the Department.
	Access Restrictions	None
	Contents	This record series may contain: Name, address, identification number of requesting entity, application for federal assistance, amount requested, project plan(s), agency recommendations, and related correspondence
	Retention and Disposition	Retain for three (3) years, then destroy.
L6337	Environmental Impact Study Records (V)	This record series documents impact studies. Pursuant to 40 CFR, environmental studies (also known as environmental impact studies) are required to be conducted by a facility or entity on projects that may impact human health and/or the environment. These studies are not required as part of state law. The state EPA only reviews these studies as part of a larger federal government review. If the state EPA has comments on a study, those comments are forwarded to the federal agency in charge of the project. These evaluations or studies are provided to the state EPA by Metro Government and this series documents the review process and comments.
	Access Restrictions	None
	Contents	This record series may contain: Name, address, identification number of the facility or entity, environmental assessments, environmental impact statements and related correspondence.
	Retention and Disposition	Retain permanently.

L6338	Financial Assurance Records	This record series documents the facility's ability to meet certain financial requirements. KRS 224 requires that certain facilities post financial assurance to ensure that funds are available to address potential environmental damages in the event of a release of pollutants or contaminants. State EPA staff reviews these documents -- letters of credit, bonds, insurance policies, and other supporting documentation and correspondence -- to determine if facilities have the financial guarantees to make them eligible to perform certain regulated activities.
	Access Restrictions	None
	Contents	This record series may contain: Name, address, facility identification number, list of agents used in processes, various financial mechanisms to demonstrate financial assurance, such as: insurance policies, bonds, letters of credit, etc.
	Retention and Disposition	Retain for two (2) years, then destroy.
L6339	Compliance Evaluation Records (V)	This record series documents that state and federal requirements are being met. KRS 224 and the regulations promulgated thereto require that facilities comply with state and federal environmental statutes and regulations. This series includes the inspection reports, photographs and other documentation of field inspectors, geologists, and other state EPA staff that perform visits to regulated entities to determine compliance with applicable state and federal regulations.
	Access Restrictions	None
	Contents	This record series may contain: Name, location and address of facility, investigation reports, inspection reports, photographs, correspondence, compliance documentation and sample analyses.
	Retention and Disposition	Retain for ten (10) years, then destroy.
L6340	Emissions Inventory Records (V)	This record series documents the process of conducting emissions inventories for fee assessment. KRS 224.20-050 authorizes the state EPA to assess fees against air emissions to fund the air quality control program. These documents include the surveys of the regulated facilities, which determine the potential and actual pollutant emissions from the facilities. These surveys are generally conducted on an annual basis.
	Access Restrictions	None
	Contents	This record series may contain: Name, location and address of facility, emissions survey letters, checklists, billing, and related correspondence.
	Retention and Disposition	Retain for ten (10) years, then destroy.

L6341	Ambient Monitoring Records (V)	This record series documents the processes used for the assessment. Pursuant to KRS 224, the state EPA is required to monitor the environmental quality of areas surrounding facilities to ensure protection of human health, safety, and the environment. Of These series includes records of environmental sampling, documentation that the sampling was performed in accordance with standard practices, sample results, and the documentation proving that results are valid. All documents in this series are part an ambient monitoring initiative and are not directly related to determining if a particular facility or group of facilities is in compliance with applicable environmental regulations.
	Access Restrictions	None
	Contents	This record series may contain: Monitoring data, quality control records, chain of custody records, lab sheets, sampling plans, and related correspondence.
	Retention and Disposition	Retain permanently.
L6342	Facility Planning Records (V)	This record series documents planned future wastewater and drinking water service. Pursuant to 401 KAR Chapter 5 and 8 require that facilities plan for future wastewater and drinking water service to the public and submit to these plans to the Department. These plans indicate future coverage areas and the anticipated timelines for extending this service. These plans allow the agency to evaluate system needs and treatment capacity. The series includes plans and records related to utility services.
	Access Restrictions	None
	Contents	This record series may contain: 201 wastewater facility plans, sewer overflow plans, drinking water monitoring plans, reports, and related correspondence.
	Retention and Disposition	Retain for twenty (20) years, then destroy.
L6343	Authorization Records (V)	This record series documents the authorization to conduct business activities that are stated in KRS 224. Kentucky law requires that the state EPA issue authorizations to facilities for environmentally related activities that could result in harm to the environment and/or to public health and/or safety. This series may include but is not limited to permits and registrations which allow regulated entities to perform disposal of solid waste, to store, treat or dispose of hazardous waste, to treat wastewater sludge or other bio-solids, to operate petroleum underground storage tanks, to discharge wastewater to waters of the Commonwealth, to install groundwater wells, to construct wastewater treatment facilities, to withdraw water from the waters of the Commonwealth, to construct in a floodplain, to construct drinking water facilities, and to emit air pollutants from a facility.
	Access Restrictions	None
	Contents	This record series may contain: Authorization applications, approval letters, permits, registration forms, permit modifications, deficiency letters, and related correspondence.
	Retention and Disposition	Destroy ten (10) years after end of authorization period.

L6344	Corrective Action and Closure Records (V)	This record series documents actions taken by the local government to remediate the site either by removal of the contamination or methods used to manage and monitor the area. KRS Chapter 224 requires that facilities adequately address contamination caused by releases of pollutants to the environment to ensure protection of the environment, safety, and public health. He records may include maps, site sketches, monitoring results, plans, photographs, and other documentation that reviewers use to assess the extent of contamination at a facility and to determine if the actions being taken at a facility are appropriate.
	Access Restrictions	None
	Contents	This record series may contain: Notice of intent forms, closure applications, site investigations plans, corrective action plans, sample analyses, property records, site visit reports, and related correspondence.
	Retention and Disposition	Destroy thirty (30) years after case closure.
L6345	Technical Assistance Records (V)	This record series documents the assistance provided by the state EPA staff to answer questions and provide assistance. KRS 224 allows for state EPA personnel to assist entities in their efforts to comply with Kentuckys environmental requirements. Due to the nature of environmental laws, the regulated public is often confused on how to best comply with environmental regulations. The public may also have non-regulatory questions on how to good stewards of the environment.
	Access Restrictions	None
	Contents	This record series may contain: Site visit reports, correspondence, assistance tracking reports, photographs, compliance implementation plans, and sample analyses.
	Retention and Disposition	Retain for ten (10) years, then destroy.
L6346	Certification Records (V)	This record series documents certifications, which include, but are not limited to, drinking water operators, wastewater operators, landfill managers, land farm managers, and asbestos removers. Kentucky law requires that the state EPA issue certifications to specified individuals, organizations, and equipment prior to engaging in environmentally related activities. Most certifications are given to individuals, allowing them to perform particular tasks.
	Access Restrictions	None
	Contents	This record series may contain: Certification applications, exam results, correspondence, licenses, training class and continuing education information, and disciplinary action documentation.
	Retention and Disposition	Destroy two (2) years after certification expires

L6347	Institutional Control Records (V)	This record series documents the controls, as reviewed by state EPA personnel, that are used to monitor the managed area. KRS 224 provides for the establishment of institutional controls to be placed on a property to ensure that contamination left in place in a managed state is not disturbed and that the property use will be managed to prevent adverse exposures. These controls are usually in the form of an environmental covenant or a deed restriction. In the event contamination is left in place in a managed state, notices are filed at the county clerks office in the county where the facility is located. The Department is mandated by the Federal Environmental Protection Agency to track institutional controls throughout their existence.
	Access Restrictions	None
	Contents	This record series may contain: Deed restrictions, covenant not to sue documents, and related documents and correspondence.
	Retention and Disposition	Retain permanently.
L6348	Program Delegation Records (V)	This record series documents the delegation process and approval. The Federal government may delegate the primary responsibility for implementing a federal program at a state level pursuant to 40 CFR. To receive program delegation, the agency must implement a program that is at least as stringent as the federal program and be able to demonstrate that it has the capacity to maintain oversight of the program. If the federal government concurs with this request, the state is given primacy to implement the program and the federal government retains a oversight role to ensure the agency maintains its responsibilities under the delegations.
	Access Restrictions	None
	Contents	This record series may contain: Federal delegation notices and related correspondence.
	Retention and Disposition	Retain permanently.
L6349	Environmental Audits	This record series documents the evaluation conducted by the facility, the finding of non-compliance, and then documents the processes implemented by the facility to correct the violations. KRS 224.01-40 allows entities to assess their compliance voluntarily and then disclose violations to the state EPA without threat of enforcement provided they address their violations in a timely manner. The Kentucky Legislature established this process to encourage staff to routinely evaluate their facilities compliance and take steps to correct any areas that do not meet the regulatory standards.
	Access Restrictions	None
	Contents	This record series may contain: Audit reports, sample analyses, and related correspondence.
	Retention and Disposition	Retain for ten (10) years, then destroy.

Series	Records Title and Description	Function and Use
L6935	Minimum Control Measure 1 (MCM1) Public Education	This record serie documents municipal separate storm sewer systems (MS4) general permit performance measures for public education program and public outreach activities within a community. The education program must focus on impacts from stormwater discharges to water bodies and the steps that the public can take to reduce pollutants in stormwater runoff. Sanitation districts (permittees) are required to maintain effective public education programs to remain compliant with federal and state regulations (40 C.F.R.
	Access Restrictions	None
	Contents	This record series may contain: Event scheduling (Public Service Park tours, student field trips, expos, workshops, presentations, job shadows, career days, science fairs and 4H camps), media outreach (newspaper articles/ads, TV, radio), adult education (brochure, bill inserts, flyers, PSP chaperone training), school education programming (field trips, pre/posttest, evaluations, program registration forms, credit agreements, Protecting the Environment Award (Entries), public survey results, stormwater hotline call tracking data, Earth Day Event Plans, feedback, event scheduling and tracking, educational curriculum (lesson plans, lesson research), related correspondence and related information.
	Retention and Disposition	Retain for three (3) years after termination of permit, then destroy.
L6936	Minimum Control Measure 2 (MCM2) Public Participation	This record series documents municipal separate storm sewer systems (MS4) general permit performance measures for public participation and involvement. Sanitation Districts (permittees) must comply with state and local public notice requirements when implementing public involvement and participation programs. Activities may include representation of local stormwater management work groups, public hearings and volunteer monitoring efforts (40 C.F.R.
	Access Restrictions	None
	Contents	This record series may contain: Partnerships (planning, meetings), River and creek events (flyers, emails, tracking, results), Household Hazardous Waste (results, invites, planning documents), Storm Drain Marking Program (request, tracking, supplies, maps), Storm Water Advisory Committee (meeting minutes, agendas), promotions and advertisements of public events (flyers, emails, bill inserts, brochures, articles), Splash McClean (scheduling, tracking, etc.), related correspondence and related information.
	Retention and Disposition	Retain for three (3) years after termination of permit, then destroy.
L6937	Minimum Control Measure 3 (MCM3) Illicit Discharge Detection and Elimination	This record series documents illicit discharge detection and elimination program. Dry weather discharges into the municipal separate storm sewer systems (MS4) can contribute significant pollutants to receiving water bodies. Detecting and eliminating these illicit discharges involves complex investigative work, which makes it challenging to establish a specific prescription to identify and eliminate all illicit connections. To comply with this minimum control requirement, an MS4 operator must develop a map of the MS4 that locates all major MS4 outfalls and names of receiving waters; effectively prohibit discharges of non-stormwater to the MS4 through the use of an ordinance or other regulatory mechanism, and provide for enforcement procedures and actions; develop and implement a plan to detect and address non-stormwater discharges; and inform public employees, businesses, and the general public of the hazards associated with illegal discharges and improper disposal of waste (40 C.F.R.
	Access Restrictions	None
	Contents	This record series may contain: Inspections, investigations and enforcement records, data collection, test results, calibration sheets, photos, structure inspection data, Chain of Custody Documentation, Lab Results, Illicit Education (brochures, letters, bill inserts, presentations), Susceptible Industry Education (brochures, letters, bill inserts), SOPs, equipment manuals, correspondence with the NKY Health Department , EPA-KY, KY Transportation Cabinet, local water districts, fire/police, homeowners, fact sheets, door hangers, wet weather sampling forms, flow charts, program development documents, small special project files/maps, research, Enforcement Response Plan, training documents, related correspondence and information.
	Retention and Disposition	Retain Permanently.

LOCAL AGENCY RECORDS RETENTION SCHEDULE

LOCAL GOVERNMENTS County/Local: General Schedules Sanitation Districts - Water Resources

Series	Records Title and Description	Function and Use
L6938	Minimum Control Measure 4 (MCM4) Construction Site Storm Water Runoff Control	This record series documents stormwater runoff from construction sites. This runoff often flows to municipal separate storm sewer systems (MS4) and ultimately is discharged into receiving water bodies. Sediment is usually the main pollutant of concern. This control measure requires Sanitation Districts (permittees) to develop, implement, and enforce a program to reduce pollutants in stormwater runoff from construction activities that result in a land disturbance of one acre or greater. The program must include control of runoff from construction activity disturbing less than one acre if the construction is part of a larger common plan of development that would disturb one acre or more (40 C.F.R.).
	Access Restrictions	None
	Contents	This record series may contain: Enforcement records, correction notices, notices of violation, stop work orders, administrative fines, photos, inspection documents, issuance of permits, workshops/activities/trainings (presentations, notes, planning), revisions to rules and regulations, contractor and developer award program documents (photos, award info, press release), tracking mechanisms (smartsheets, spreadsheets), SOPs, enforcement response plan, tracking of new regulatory requirements and distribution to contractors, Plan Review, Contractor Developer Education (flyers, workshops, presentations, award nominations), related reports, correspondence and information.
	Retention and Disposition	Retain Permanently.
L6939	Minimum Control Measure 5 (MCM5) Post-Construction Stormwater Runoff Management	This record series documents the post-construction stormwater management programs. This is a key element of the municipal separate storm sewer system (MS4) permit and strategy for achieving the goals of the Clean Water Act. An effective program has the ability to positively affect the chemical biological and overall health of streams, rivers and lakes by reducing the rate and volume, and improving the quality of stormwater runoff from the MS4. Post-Construction Stormwater Management refers to the activities that take place after construction occurs, and includes structural and non-structural stormwater controls that protect the environment from the harmful impacts of urban stormwater runoff. Generally, non-structural best management practices incorporate site planning and design techniques including the use of open space, vegetated conveyance and buffers, natural infiltration, stream buffers, green infrastructure, and use low-impact development (40 C.F.R.).
	Access Restrictions	None
	Contents	This record series may contain: BMP monitoring (inspections, presentations, data, reports, SOPs), manual updates and distribution of records, fact sheets (research, photos, final copy), historical credits/incentives, master planning (submitted plans, reports), sustainable development (meeting notes, presentations), submitted plans, rain garden workshops, partnerships, rain barrel program, correction notices, notices of violation, stop work orders, administrative fines, rules and regulation changes/updates, enforcement response plan, inspection (photos, reports), tracking mechanisms (smartsheets, spreadsheets), green infrastructure research and planning, trainings information, coordination efforts with planning and zoning subdivision regulations, permit issuance (land disturbance, clearing, grading), project review, related correspondence and information.
	Retention and Disposition	Retain Permanently.

LOCAL AGENCY RECORDS RETENTION SCHEDULE

LOCAL GOVERNMENTS County/Local: General Schedules Sanitation Districts - Water Resources

Series	Records Title and Description	Function and Use
L6940	Minimum Control Measure 6 (MCM6) Pollution Prevention and Good Housekeeping	This record series documents the operation and maintenance programs to prevent or reduce polluted runoff from activities conducted by municipalities. Sanitation Districts (permittee) must develop and implement an operation and maintenance program that includes a training component, inventory of municipal facilities, maintenance activities, maintenance schedules, and long-term inspection procedures for structural and nonstructural stormwater controls to reduce floatables and other pollutants discharged from the municipal separate storm sewer system (MS4). While this measure is meant primarily to improve or protect receiving water quality by altering municipal or faculty operations to consider water quality, it also can result in a cost savings for the permittee, as proper and timely maintenance of storm sewer systems can help avoid repair costs from damage caused by age and neglect (40 C.F.R.
	Access Restrictions	None
	Contents	This record series may contain: Annual co-permittee pollution prevention training documents, annual employee pollution prevention training documents, new-hire orientation (storm water video, tests), pollution prevention signs and updates, annual inspection/self audit documentation of sanitation district facilities, co-permittee facility annual inspection/self audit, co-permittee questionnaires for annual report, Storm Water Pollution Prevention Plans, co-permittee toolkit, educational materials (brochures/handouts) and related correspondence and information.

L5042	Occupational License Fee on Wages and/or Net Profits File	This record series documents payment of the occupational license fee by those working and/or doing business in local government. The occupational license fee is assessed upon all salaries, wages, commissions or other compensations from businesses, trades, occupations, professions and other activities in the local government. Also assessment on the net profits of all businesses, trades, occupations, professions and other activities in the local government. Each employer must withhold the license fee from gross wages, salaries, commissions and other compensation paid to employees for services performed within city Each business must register for the occupational license fee. Each employer and/or each business must report quarterly and annually the license fee withheld of each employee and/or its net profit subject to the fee. All of this, along with correspondence, refund info., and audit information is documented in this file. The Annual Reconciliation of License Fee Withheld and the Employers Quarterly Return of License Fee Withheld is part of this file.
	Access Restrictions	KRS 61.878 (1)
	Contents	This record series may contain:: Net Profits License Fee Return, Annual Reconciliation of License Fee Withheld, Employers Quarterly Return of License Fee Withheld, Refund Card, W-2s, copies of federal tax returns, Payment Forms, Revenue Audits, and general correspondence.
	Retention and Disposition	Retain for three (3) years, then destroy after audit.
L5043	Quarterly Insurance Premium Tax Return (V)	This record series documents quarterly reporting of an individual insurance co. collection and payment of premium taxes to a local government which has adopted a municipal premium tax ordinance with KRS 91A.080. KRS 304.2-110 gives authority to the Commissioner of Insurance to make rules and regulations for the enforcement of the Insurance Code. 806 KAR 2:095, Section 2, has been adopted which requires that insurers make a quarterly report and payment to each city or urban co. government for municipal premium taxes collected during the quarter. The report is on a form prescribed by the Commissioner of Insurance or one created by the city which is substantially similar to the one prescribed by the Insurance Commissioner.
	Access Restrictions	None
	Contents	This record series may contain: Time period covered, name of company, employer I.d. #, name, title, address and phone of co. officer preparing the return, name of city or urban co. government, line of insurance, tax rate, premiums received, tax payable, collection fee retained, amount collected from policyholders, total in each category, signature line, date.
	Retention and Disposition	Destroy thirty (30) days after annual reconciliation report is reviewed and information verified for accuracy and audit.
L5044	Insurance Premium Tax Annual Reconciliation (V)	This record series documents annually reporting of an individual insurance companies collection of municipal premium taxes from policyholders to a city or urban county government who has passed a municipal tax ordinance. Municipal premium taxes are levied pursuant to KRS 91A.080. KRS 304.2-110 gives authority to the Commissioner of Insurance to make rules and regulations for the effectuation of that part of the Insurance Code. As a result, 806 KAR 2:095, Section 3, has been adopted which provides that insurers shall provide each city or urban county government an annual report(reconciliation) on or before March 31 or each year of municipal premium taxes paid during the preceding calendar year.
	Access Restrictions	None
	Contents	This record series may contain: Time period covered, name of company, employer identification number, name, title, address and phone of company officer preparing the return, name of city or urban county government, arranged by quarter listing line of insurance with established tax rate.
