Project Summary

Total Funds Requested: \$ 77062.78

Please provide a complete description of the proposed project: Describe the project scope and expected results. Explain why the identified records are selected for preservation; and their historical significance and relevance to the community. Identify key agency personnel and their role(s) in the project. Explain the agency's contribution to the project: working space, equipment storage, staff or monetary contribution. Describe how the completion of this project will assist the agency's records management program.

Equipment is a crucial part of our records mangement program. These are our counties permanent records. We are applying for this grant to upgrade are records keeping equipment. Our current equipment is slowing down due to age and running out of space needed for updates to our software program used to record these documents and storage for these records. New equipment will help us get the space and updates that we need for our recording process.

Plan of Work

Please list the lowest bid project vendor(s) for each section.

Section I

Purpose: Scan & print plat maps

Vendor: Software Management
 Vendor Contact: Jackie Arnold
 Vendor Address: 2011 Cobalt Drive
Louisville, KY 40299
 Vendor Phone and Email: 502-708-7068 jarnold@smlc.us

Records	Date	Series	Cost
Plat Map Scanner/Printer combo			10909.00
<i>Quality Control (Add 12.5% of the microfilming cost)</i>			
Total Section I Cost			10909.00

Section II

Purpose: More space and updated recording software

Vendor: DRMS
 Vendor Contact: Trystan Gurrola
 Vendor Address: PO Box 4097
Paducah, KY 42002
 Vendor Phone and Email: 270-443-1610 Trystan.Gurrola@drmsusa.com

Records	Date	Series	Cost
Dell Server, server backup, BNAS, Firewall, Configuration switches			31390.00
<i>Quality Control (Add 12.5% of the microfilming cost)</i>			
Total Section II Cost			31390.00

**Kentucky Department for Libraries and Archives
Local Records Program**

Section III

Purpose: Public use and secure employee computers

Vendor: DRMS
 Vendor Contact: Trystan Gurrola
 Vendor Address: PO Box 4097
Paducah, KY 42002
 Vendor Phone and Email: 270-443-1610 Trystan.Gurrola@drmsusa.com

Records	Date	Series	Cost
12 Dell Computers	09/07/2023		24080.00
<i>Quality Control (Add 12.5% of the microfilming cost)</i>			
Total Section III Cost			24080.00

Section IV

Purpose: Storage for plat maps

Vendor: Easi File
 Vendor Contact: David Lee
 Vendor Address: 2500 East Miraloma Way
Anaheim, CA 92806
 Vendor Phone and Email: 859-746-0752 david.lee@easifile.com

Records	Date	Series	Cost
3 plat map cabinets			8085.00
30 side entry envelopes			1710.00
40 top entry envelopes			2120.00
1 divider card			55.00
freight and liftgate			713.78
<i>Quality Control (Add 12.5% of the microfilming cost)</i>			
Total Section IV Cost			10683.78

** Please Attach Additional Sections, if needed**

Kentucky Department for Libraries and Archives Local Records Program

Can these records be removed from the office during the project? Yes No N/A

In what format do these records exist? Select all that apply.

Paper Electronic Files Microfilm Microfiche Aperture Cards Plats

Other: _____

Where are project records located? How does your agency provide for the long-term survival and accessibility of agency records? Are the records stored in a secure, climate controlled and fire-resistant facility, with adequate storage space, and proper security and supervision? Please explain.

This equipment is located in our deed room, and marriage license room at the Pike County Clerk's office, 146 Main Street Pikeville Kentucky 41501. We have public computers for digital access to some of our records. Our office is climate controlled. We have alot of records stored and space will soon be a problem. During the day we have staff and cameras, and during the night the doors are locked and we have cameras.

Project Outcomes

Describe project outcome(s) and explain the significance of each. How will the project outcome(s) assist with the management of project records? How will project outcome(s) advance the agency's records management program?

Getting a plat map scanner/ printer and new cabinets will help preserve our plat maps. We make copies of plat maps everyday and they are being folding because we can only print in sections. With a plat map scanner/printer we will not have to fold the maps to make copies. If we get new plat map cabinets will we have more space to store the plat maps with out folding them. Our current server and computers are out of date and dont have the space needed for updates and storage. If we get this equipment we will have more storage for records and updated software for our recording departments.

Kentucky Department for Libraries and Archives Local Records Program

Commitment of Local Government:

Explain the ways your agency contributes resources to records management: Does your agency engage in the regular disposition of records in accordance with applicable records retention schedules? Does your agency separate inactive or non-current materials from active files? Does your agency provide records management training to agency staff? Explain your agency's records management program.

We record records in purchased software. We follow the retention schedule and dispose of records according to the schedule. Each department has a copy of the retention schedule. Each employee has been trained on how to use the retention schedule.

How does your agency ensure records are available to the public? Explain how your agency ensures access to records per the state's Open Records Law (KRS 61.870-876).

We have 5 public computers. The computers are available during office hours. Many of our records are also available online through our records management provider DRMS. Researchers can also come to our office and physically search through our records. Records are scanned and indexed in our computer system daily.

Additional information/comments:

Did you consult with your Regional Administrator (RA) on the project specifications (the records)?

I worked with our regional administrator David Atha. He came to our office for a visit and provided some direction. He has been very helpful and has answered all of my questions.

Kentucky Department for Libraries and Archives Local Records Program

Certification:

Statement regarding expenditure of funds: The applicant agrees that funds granted under the Local Records Program will be spent solely in accordance with the project description and budget statement presented in this application. The grant recipient acknowledges that any changes in the submitted plan of project work, funding, or length must be submitted in writing to, and approved in advance by, the Kentucky Department for Libraries and Archives.

Statement regarding archival and records management policies and procedures: The applicant agrees to comply with all policies, procedures, and standards deriving from Kentucky Revised Statutes, Kentucky Administrative Regulations, as well as the policies of the Kentucky Department for Libraries and Archives and the State Libraries, Archives, and Records Commission concerning management, preservation, reproduction, and storage of public records in addition to those dealing with the official recording of such records in government offices, whether on paper, microfilm, or other medium.

Statement regarding project status and financial expenditure reporting: The applicant agrees to submit biannual Project Status and Financial Expenditure Reports during the course of the project and at the end of the project as specified in the grant contract. The grant recipient also agrees to create a separate grant fund account, maintain separate financial and programmatic records on this project, and retain source documentation such as canceled checks, paid invoices, payrolls, or other accounting documentation, which would facilitate an audit as required by statute, regulation, or administrative procedure.

Statement regarding continued records management and preservation support: The applicant agrees to make budgetary allowance to continue the work begun by this project to better manage, preserve, and secure the current and future records of this agency. The applicant also recognizes that such an allowance is a necessary operating expense that must be budgeted for on a regular basis.

Statement regarding the Americans with Disabilities Act: The applicant agrees to comply with the Title II provisions of the Americans with Disabilities Act and to submit to the Department, upon request, documentation that demonstrates compliance with the Title II requirements of the Americans with Disabilities Act.

Statement regarding State and Local Procurement: The applicant agrees that it has complied with all state and local procurement requirements to obtain bids as part of this application process.

Has any audit conducted by any entity during the two years preceding this application found your agency to have failed to comply with any applicable state purchasing statute? This includes failing to solicit for bids through an approved method found in statute or failing to award the bid to the lowest qualified bidder for any reason other than those allowed by statute. This would include the acquisition of any item or service not specifically exempted from bidding by statute. Audit reports for any agency selected to receive a grant may be checked to verify your answer to this question, a falsification may be considered fraud.

Yes No

INVITATION FOR BID PROPOSAL

The Office of the Pike County Clerk is applying for a Kentucky Local Records Program grant and is now accepting bid proposals for services/equipment/supplies.

Special Conditions

1. Bid proposals for micrographics services will only be considered from offerers whose laboratories are certified by the Kentucky Department for Libraries and Archives.
2. Work must be performed in accordance with applicable policies and regulations of the Kentucky Department for Libraries and Archives as stated in 725 KAR 1:050. Microfilm produced with grant funds must be tested and approved by the Department before authorization for payment will be given.
3. Copies of digital images accompanied by the corresponding index(es) must be supplied to the Kentucky Department for Libraries and Archives upon completion of the project and before payment is rendered.
4. Roll microfilm used in this project must be polyester based.
5. Micrographics services offerers must indicate the roll length that will be used and provide an estimated roll count for each line item that is accurate to within one roll.
6. Grant funds may be expended for initial quality control costs. Costs accrued from additional quality control services will be the sole responsibility of the offerer.
7. Offerers for services must conduct an onsite examination of the materials before submitting a bid proposal. Special conditions or needs (photostats, bindings, physical conditions, formats, etc.) must be taken into account before a proposal is submitted. All proposals must include the date the onsite examination was made.
8. Clarification of terms, descriptions, conditions, or specifications for equipment/supplies is the sole responsibility of the offerer.
9. Bid proposals must include separate, itemized price quotes for each line item of the proposed project, or section for which the offerer is making a proposal, and a total cost of all sections bid on.
10. Offerers must provide services or materials within the term of the grant following the beginning of the FY 2024C2 and subsequent availability of state funds.
11. Written notification from the local agency and the signed, returned obligation statement shall constitute a legal obligation on the part of the offerer to provide the services as stated.
12. Selection of a bid proposal is contingent upon the award of the Local Records Program grant and subsequent availability of state funds.
13. Written proposals must be received no later than 09/07/2023 to be considered.

SAME Company, SAME Great Service

Dear Rebecca,

Thank you for the opportunity to present this proposal for digital imaging. As a Solutions Provider for HP, Océ and Canon USA our number one goal is to provide you with the tools, support, experience, and expertise that will ultimately help your firm to be more effective, efficient, and profitable. When evaluating Lynn Imaging, I hope you will consider the following:

- *Come visit one of our locations in person, our showrooms in Lexington and Louisville, KY feature the finest equipment from HP and Canon Solutions America (CSA) formerly Océ. We will always have your best interest in mind, if the equipment lines we represent will not meet your needs then Lynn Imaging will send you to a trusted affiliate that can offer you the same great sales and service solutions that we offer.*
- *Our level of knowledge and expertise in providing hardware, software, and services you require.*
- *Our proactive approach to provide dedicated attention to your organization and its existing work-flows.*
- *Our Service Team will exceed your expectations.... Guaranteed!*
- *We offer complete solutions and services that encompass your entire Construction Management needs from conception through the end of the building life!*

We have a 72-year history as a professional reprographer; our installation and IT staff implement printing solutions and solve plotting issues on a daily basis. This experience is not something that we take for granted because when you have immediate needs, you can trust that Lynn Imaging will have the very best service technicians in the Industry at your disposal and we have likely already encountered the issue.

An on-going relationship with Lynn Imaging affords you access to many professionals working to integrate the latest and best technology into your organization. On behalf of our entire team, we look forward to working with you.

I will be in touch with you shortly to review the information provided. In the meantime, do not hesitate to contact me at 502-376-1405 or tphilpot@lynnimaging.com if you have any questions.

Once again, thank you for the opportunity to present this proposal. I look forward to addressing your questions and continuing to build on the business relationship between Lynn Imaging and Pike County Clerk

Respectfully,

HP DesignJet T2600 Multifunction Printer series

ENGINEERED FOR COLLABORATION—Turn your workgroups into highly efficient teams

SEAMLESS EXPERIENCE—Designed for all

- Radically simple experience with a 15.6-inch interface and the easy PDF printing with HP Click.⁴
- Engage in a collaborative workstyle with teams by quickly accessing shared folders to print and scan.³
- Empower your workforce. Easily print and share jobs from the cloud with your mobile device and HP Smart app.
- Fits in your workplace as the most compact 36 inch All in One and quietest operation, with up to 87% less noise.²

UNLEASH PERFORMANCE—To turn design into delivery

- Showcase design versatility from precise line drafts to boldly colored 3D renders, with HP Bright Office Inks.
- Provide the highest accuracy and display the finest details with the unique Adobe PDF Print Engine.⁵
- Meet deadlines with speeds up to 180 D/hr, the industries only integrated stacker², and dual rolls.⁶
- Easily digitize your projects with automated scanning, user-centric quicksets, and post-editing capabilities.

SECURE—World's most secure large-format printer¹

- Best of class network protection with features like HP Secure Boot and whitelisting
- Control who accesses the printer and its confidential documents with secure user authentication features.
- Keep your fleet secure with HP JetAdvantage Security Manager.

For more information, please visit <http://www.hp.com/go/designjett2600>

Dynamic security enabled printer Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at <http://www.hp.com/go/learnaboutsupplies>

¹ Advanced embedded security features are based on HP review of 2019 published embedded security features of competitive printers, as of February 2019.

² Based on comparable large-format inkjet printers under \$12,000 (USD) as of December, 2018. IDC figures show that Canon, Epson, and HP combine for 98% share of this printing category worldwide as of Q3, 2018. Most compact footprint calculated using all devices in "Operation mode" with an Open Basket and the arm of the Screen (front panel) spread out to enable user interaction and the scanner listed on the Canon TX 3000 T36 MFP and the Epson SC 15200 MFP to enable top media loading. Most quiet according to internal HP testing of sound pressure level during operating mode (plain paper, line drawing, Normal mode) compared to published specification of competitive printers. Percentage calculations of noise based on lineal units vs. Canon TX 3000 published spec of 51dB(A). Fastest print speed based on sustained printing speeds. Only automatic print stacking based on capacity of the integrated stacker versus competitive printers only offering basket or bin with stacking position.

³ Using Lightweight Directory Access Protocol (LDAP).

⁴ Compared to Canon Direct Print & Share and based on "One Click Print." Once image is selected, one-click printing when printing the entire file without any modifications to the print settings. Applicable to PDF, JPEG, TIFF, DWF, HP-GL/2 files.

⁵ Requires purchase of the HP DesignJet T2600 PostScript® models or optional HP DesignJet PostScript/PDF Upgrade Kit. Highest accuracy and finest details compared to printers without the embedded Adobe technology excluding RIP users, and based on internal HP testing with PDF files containing special fonts, PANTONE® colors, smooth shading, overprint, and transparencies that can only be reproduced using the Adobe PDF Print Engine. The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. To learn more, visit <http://www.adobe.com/products/pdfprintengine>.

⁶ Dual rolls included with HP DesignJet T2600dr multifunction printers only.

Technical specifications

Print	
Print speed	180 A1/D hr, A1/D in 19.3 sec on plan media ¹
Print resolution	Up to 2400 × 1200 optimized dpi
Technology	HP Thermal Inkjet

⁶ Applicable for dual-roll printers only.
⁷ Applicable for PostScript printers only.
⁸ Single-roll printers come with one spindle, dual-roll printers come with two spindles.

SAME Company, SAME Great Service

Service Excellence Guarantee

It's no accident that Lynn Imaging is the largest servicing bureau for HP and Canon USA (Oce) wide format equipment. Our highly skilled, factory trained, certified technicians set us apart from all of the rest! Each technician receives rigorous certification training from the manufacturers so that when you have a problem you get experienced technicians that resolve well over 90% of services issues on the first visit.

Full-Service Maintenance Agreements

We always recommend Full-Service Maintenance Agreements to protect your investment and to make sure your equipment is always at its best. A variety of plans and service options are available to meet your individual volume requirements.

Reasons for Service Calls

- Part at end of life or part failure
- Firmware / software out of date
- Device needs cleaning
- Other

Feature	Benefit
Call back within 2 hours of you notifying Lynn Imaging that service is required.	Call back within 2 hours often solves the problem over the phone.
Two Preventative Maintenance calls per year.	Eliminates future issues BEFORE they occur, to keep you printing.
Next Business Day On-Site service.	Keeps you printing!
Lynn Imaging "Keep you Printing" guarantee.	We will print your work at our locations and deliver to you immediately. No charge for delivery.
Guarantee of service and parts availability for a minimum of 5 years (3 years for previously installed equipment).	No need to worry about obsolescence due to unavailability of parts and our service team will always strive to repair your machine as long as it's under a FSMA.
Lynn Imaging "TOTAL SATISFACTION GUARANTEE."	If your machine cannot be repaired while under a FSMA or Cost Per Copy considering normal use, we will replace with a "like machine at no additional cost."

PRINTING CATEGORY DEFINITION

Printing categories are an easy way to track the type of printing on large format devices by a particular machine. These categories are based on ink usage. Bucket one includes all prints that have less than 10% ink coverage on the page, and it incrementally increases to buckets with more than 50% ink coverage on the page.

The cost of ink is a huge variable in large format color printing. As many switch from toner to ink this is a great way to keep the cost of printing down. The overwhelming majority of prints (more than 90%) on the PageWide XL and DesignJet XL printers fall into buckets 1 and 2.

Bucket Number	Bucket 1	Bucket 2	Bucket 3	Bucket 4	Bucket 5
Name of Bucket	Mono Lines Drawings	Color Lines Drawings	Low Density Image	High Density Image	Premium Quality Image
Ink Coverage	Less than 10%	Less than 10%	10 - 50%	More than 50%	More than 50% on specialty paper
PageWide XL Categories Examples by Industry

HP DesignJet T830 36-in Multifunction Printer

Communicate more effectively—no learning curve needed—with print plus scan and copy capabilities

CONVENIENT—Fast, agile, intuitive print/scan/copy

- Enjoy easy installation in the office, construction job site with the most compact 36-in large-format MFP.¹
- Easily print project sets and PDF documents with HP Click printing software.
- Anyone can print smoothly from a smartphone or tablet with HP Mobile Printing.²
- Fit your print volume—choose from 130- and 300-ml HP ink cartridges.

TRUSTED—HP DesignJet quality and reliability

- Get HP DesignJet quality also in small-format sizes—print half-size documents with 50-sheet A4/A3 input tray.
- Smart scanning technology protects originals from damage when scanning and obtains precise colors.
- Reinforced design and strong legs for easy transport and use at the job site.
- Redesigned stand reduces CO₂e up to 197 tons/year by units sold.³

COMMUNICATION—Immediately share meeting results

- Use built-in scanner to copy and distribute sketches and hand-annotated drawings to peers/partners right away.
- Easily link your computer, smartphone, or tablet to the printer with Wi-Fi Direct.
- Share drawings immediately—scan/email from front panel, use HP Smart app⁴ to email contacts, post to cloud.
- No learning curve—with the intuitive design of a single touchscreen, you can scan, copy, and share instantly.

For more information, please visit <http://www.hp.com/go/designjett830>

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

¹ The HP DesignJet T830 24-inch and 36-inch Multifunction Printers are the most compact large-format devices performing print/scan/copy functions based on H x W x L specifications published as of May, 2017.
² Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections) or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See <http://www.hp.com/go/designjetmobility> for more details.
³ Redesigned stand with reduced material usage and up to 30% weight reduction compared to the previous stand model used in the HP DesignJet T830 Multifunction Printer series. Based on calculations in accordance with ISO 14040/14044 Life Cycle Assessments using ReCiPe (H) v. 1.1 (2016) on GaBi 8.5 (2018) software and scaled to reflect expected yearly sales.
⁴ The HP Smart app is available for Apple® iPad, iPhone, and iPod Touch running iOS v7.0 or later and for Android™ mobile devices running Android™ v4.4 or later. The HP Smart app is available for free from the Apple® App Store for Apple® mobile devices and from the Google Play Store for Android™ mobile devices.

Tommy,

I would like to extend an invitation to bid on a plat map scanner / printer for the KDLA grant we are applying for. I have attached the invitation for bid proposal to this email. KDLA recommends a site visit but I don't think they are required for equipment. All bids are due in my office by 4pm 09/07/2023. If you send us a bid just make sure you include shipping/handling, freight, delivery and installation/set-up costs, which should be itemized in the bid. We look forward to hearing from you!

Sincerely,

Rebecca
