# Local Government General Records Retention Schedule

This retention schedule may be used by all local governments and their agencies and offices. It lists those records that any local agency may create or receive in the course of daily business. For a local agency to have an effective records management program this retention schedule should be used on regular basis, along with the agency specific schedule for that agency. *For example: If you are a sheriff or a city you would use the County Sheriff Records Retention Schedule or the Municipal Government Records Retention Schedule and the Local Government General Records Retention Schedule respectively.* This retention schedule has been approved by the State Archives and Records Commission in accordance with KRS 171.410 – 740. This approval provides the legal basis for local agencies to apply this schedule to their records management needs.

This retention schedule also includes record series listings for

- police departments
- fire departments
- emergency medical services
- 911

We have included these because they may be part of county governments, city governments or special districts.

## GLOSSARY OF TERMS For Records Retention Schedules

- Permanent (P)** Denotes records appraised as having historical, informational or evidential value that warrants preserving them permanently (forever) beyond the time needed for their intended administrative, legal or fiscal functions. These records may be destroyed **only** after the written permission is given by the State Archivist and after they are microfilmed according to specifications published by the Department for Libraries and Archives.
- Confidential (C)** Records deemed unavailable for review by the public after applying the state’s Open Records Law (KRS 61.878) and other state and federal statutes and regulations with specific restrictions. The (C) is added to appropriate record series descriptions as a reminder to agency personnel and does not bear any legal status. **It is important to note that the local government head has the responsibility of knowing all the appropriate confidentiality laws, statutes and regulations that apply to the records maintained in their office and to see that they are enforced.** Even though a record series may or may not be marked confidential on a records retention schedule, contradictory laws or regulations that are approved after the retention schedule has been completed may not be reflected but must be honored.
- Vital Record (V)** Records that are essential to the continued functioning of the local government during and after an emergency, as well as those records that are essential to the protection of the rights and interests of that local government and of the individuals for whose rights and interests it has a responsibility. Local Government should have a plan in place to identify those records and provide for their protection in case of a disaster (fire, flood, earthquake, etc.).
- Duplicates** Duplicate records that have not been assigned a retention period and function solely as reference and informational material may be destroyed when no longer useful. If the duplicate is considered the “copy of record”, it must be retained according to the retention period on the schedule.
- Destruction Certificate** A destruction certificate should be used to document the destruction of public records and may be found, along with the instructions at the Kentucky Department for Libraries and Archives website ([www.kdla.ky.gov](http://www.kdla.ky.gov)). It should be used when destroying records according to the appropriate records retention schedule. No record created or maintained by a local government agency may be destroyed unless it is listed on the retention schedule and a destruction certificate completed and the original copy sent to the Department for Libraries and Archives (Department).
- After Audit** A term used in the disposition instructions to denote a records series that shall only be destroyed after the retention period has expired and an official audit has been performed. Example: 3 years and audit: This means that the record series must be kept for 3 years after last activity or date in a file. The record must have gone through the annual audit before it can be destroyed.

| L4954  | <b>Official Correspondence</b>            | This record series documents the major activities, functions, events and programs of a local government and in addition helps in the establishment of an administrative history. It provides a record of policy evolution and formulation, how and why decisions are made, and how these decisions impacted the local government and the public at large. This series is usually created by the chief administrative officer of the local government and also by administrative heads of official departments, commissions, boards and agencies within the local government. The series provides adequate and proper documentation of agency matters, as required in KRS 171.640. Official correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email. |
|        | <b>Access Restrictions</b>                | None  |
|        | <b>Contents</b>                           | Official correspondence is incoming and outgoing correspondence that may consist of: letters, notes, memoranda, directives, policy statements, and other information commonly found in the body of the message and/or any attachments to the message. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file.   |
|        | <b>Retention and Disposition</b>          | Retain permanently.   |
| L4955  | <b>Routine Correspondence</b>             | This record series can be found at all levels of an organization and documents business related correspondence that is not crucial to the preservation of the administrative history of an agency. It consists of correspondence that is of a non-policy nature and deals only with the day-to-day, general operations of an agency. Routine correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email.   |
|        | <b>Access Restrictions</b>                | None  |
|        | <b>Contents</b>                           | Routine correspondence is incoming and outgoing correspondence that may consist of: letters, notes, postcards, memoranda, announcements, or other information commonly found in the body or the message and/or any attachments. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file. General correspondence does not include: non-business related messages, spam and junk mail, duplicate copies of general announcements. (See series L4956 Informational and Reference Material and L5866 Non-Business Related Correspondence)  |
|        | <b>Retention and Disposition</b>          | Retain for two (2) years, then destroy.   |
| L4956  | <b>Information and Reference Material</b> | This record series documents materials of a non-technical or technical nature which may aid in or support the conduct of official agency business, but which are not critical to continued operations. This series may also include material used in the professional enhancement of agency employees or duplicate copies of material maintained for solely for reference purposes by the agency or individual employees. Informational and reference material may appear in paper or electronic format and may be as formal as a publication or brochure (usually external to the agency) or as informal as a news clippings or note. Records in this series may be destroyed when they become obsolete or no longer useful to the agency.   |
|        | <b>Access Restrictions</b>                | None  |
|        | <b>Contents</b>                           | Information and reference material may include published and/or non-published material (usually external to the agency) such as: Periodicals; books; brochures; reports; some logs and other tracking tools; copies of memoranda and general announcements (that require no action on part of the recipient); professional literature not related to day-to-day activities (such as postings on a professional listserv); voice mail; casual email and other correspondence not related to official duties (see L4955-General Correspondence); and duplicate copies of records retained for reference purposes only.  |
|        | <b>Retention and Disposition</b>          | Destroy when obsolete, or no longer needed.   |

| L5364  | <b>Surveillance Video/Audio Recordings</b>                    | This record series documents the activities in public areas of local government facilities. The cameras usually run 24 hours a day and record all activities in specific areas. Used in case there is destruction of property, breaking and entering, or other unlawful acts. This includes the general inmate population areas of detention facilities except for booking/interrogation. These cameras may be located in areas such as lobbies, kitchens, control rooms, libraries, hallways, entrances to government buildings, local government offices and any where the public has access. These tapes are used as a security measure in the identification of persons who cause disturbances or violate laws.                |

| L5866  | <b>Nonbusiness Related Correspondence</b>                         | This record series documents paper correspondence and email that is commonly found at all levels of an organization and is not related to agency business. It consists of messages of a purely personal nature, spam, and other unsolicited correspondence. (See contents for more detailed descriptions.) Agency staff should destroy or delete these records upon receipt because they are not business-related, and because agencies may be required to produce them under legal orders or open records requests. This type of correspondence is problematic for many reasons: SPAM and unsolicited messages (1) tend to exist in tremendous quantities, which can overwhelm an email system; (2) are usually unwanted; (3) can be offensive; and (4) are potentially virus laden. Personal messages (1) take away from an employee's work time; (2) may be interspersed with business related email, making management difficult and exposing the agency to potential embarrassment and legal risk; and (3) may be a violation of the agency's email and Internet acceptable use policy . Given the nature of email, the existence of this type of correspondence is inevitable and agencies are encouraged to train employees to delete it as soon as possible. See "Guidelines for Managing Email in Kentucky Government" for more information on managing email correspondence. |
|        | <b>Access Restrictions</b>  | None   |
|        | <b>Contents</b>   | Nonbusiness related correspondence is incoming and outgoing correspondence that may consist of: Paper records that may be personal, unsolicited and unwanted that has nothing to do with agency business. Email that may be: (1) Personal messages: While a certain amount of personal material maybe acceptable, abuse of the system can lead to disciplinary action and even dismissal. All agencies should have an appropriate use policy that determines the amount of personal messages acceptable on the system.<br>(2) SPAM is the term for electronic junk mail. It is completely unsolicited and unwanted. It can be offensive in nature, can carry viruses and is sent as a way of disrupting normal business operations.<br>(3) Unsolicited messages are email that may be unwanted, but is somewhat business related such as advertising from vendors and non-work related email from coworkers such as jokes and forwards, miscellaneous news articles, non-work related announcements, etc.  |

| L6350  | Maps (V)                                   | <p>This record series documents maps, intended for public distribution, which consist of images and/or data plotted to show geographic points at which various objects, incidents or phenomena occur across the local coverage. Examples of these include roads; parcels; infrastructure; boundaries, zones and districts; topographical or geological features; recreational trails; or cemeteries in the coverage area (city, county, region). These maps may be maintained in paper or in electronic format. Electronic maps consist of static images or dynamic packages produced by a Geographic Information System (GIS). These GIS databases may be unique to one local agency or developed and maintained through a cooperative effort of several agencies (public and private) across a city, county, or region. In these cooperative systems various entities feed data into layers that are linked to detailed attribute information or descriptions stored in a database. The GIS software access this integrated graphic and attribute information to support all mapping, geographic query, and analysis applications. (For more detailed information about GIS databases, see attachment). Some of this data may be shared or made available through Internet mapping applications on the local level and the KYGEONET, the Commonwealth's enterprise geographic information system. (The KYGEONET is described in Series 05431, scheduled under the Division of Geographic Information.)</p> <p><b>Access Restrictions</b> None</p> <p><b>Contents</b> This record series may contain: Surveys, plats, maps, plans, drawings, and images. GIS databases contain: spatial coordinates; plotted images and/or other data. Large GIS databases may contain raster data (images) and vector data (plotted points) in various layers organized into categories such as: Parcel; Centerline; Aerial; Building; Critical Infrastructure (water/sewer); Topology/LiDAR; Drainage; Zoning; and Voting Precincts. GIS databases will also contain appropriate metadata.</p> <p><b>Retention and Disposition</b> Agencies should capture one (1) copy (paper or digital) of static maps. Duplicate copies and copies made for internal reference may be destroyed when no longer needed. Agencies should take periodic snapshots of GIS data. To help determine rate and methods of capture, please contact KDLA Public Records Division staff.</p> |
| L6647  | Special Permits (Fireworks, Parades, etc.) | <p>This record series documents the application for permits for events that will be taking place in the public arena. Examples are parades, festivals, temporary retail outlets and others.</p> <p><b>Access Restrictions</b> None</p> <p><b>Contents</b> This record series may contain: Name of applicant, description of activity, date and signature.</p> <p><b>Retention and Disposition</b> Retain for two (2) years, then destroy after audit.</p>  |
| L6648  | Incident and Accident Reports (V)          | <p>This record series documents incidents, accidents and/or complaints. The information is used to inform the administration of an incident/accident/complaint so management can take actions to prevent similar incidents in the future. It alerts administration and the agency's insurance provider to a potential claim and the need for investigation. Additionally, OSHA requires agencies with more than ten employees to maintain a record of occupational injuries and illnesses.</p> <p><b>Access Restrictions</b> KRS 61.878 (1) (a) Personal Information</p> <p><b>Contents</b> This record series may contain: Name, address, phone number, age, sex, and social security of person involved, Date, time and exact location of incident, type of accident, incident/accident specifics, if an employee was involved, the name and their employment history, a description of incident/complaint, action taken by staff members, witness name, phone number and address, medical follow-up, type medical treatment sought (if any), dates of treatment, treating physician, and address, dates off work and return to work and if duties restricted and related information.</p> <p><b>Retention and Disposition</b> Retain for five (5) years after accident/incident occurred for adults. For children, retain until age eighteen (18) years plus five (5) years or until litigation is complete, whichever is longest.</p>  |

| <b>L6686</b>  | <b>Material Safety Data Sheets (MSDS)</b> | This record series documents and informs employees of hazardous chemicals that are used by the agency. The Occupational Safety and Health Administration sends the data sheets to each respective agency, which is then responsible for making them available to staff. Every employee has the right to know what chemicals he or she is being exposed to, and the possible side effects. In addition, personnel need to know what procedures to take if an accident occurs, to safely dispose of the chemicals or to transport them. It also provides other pertinent information about the chemicals, including flammability rating, boiling point, melting point, solubility in water, appearance and odor, and emergency telephone numbers. |

| L6709  | <b>Personal Information Security Breach Investigation/Notification File</b> | This record series documents an agency's investigation in to a breach of sensitive information it collects, stores, or maintains. Effective January 1, 2015, KRS 61.933 requires local agencies that are notified of or determine that a breach has occurred in security relating to personal information they collect, maintain, or store, to begin a reasonable and prompt investigation within no later than seventy-two (72) hours of discovery or notification of the breach. If the agency determines that a security breach has occurred and that the misuse of personal information has occurred or is reasonably likely to occur, it must notify certain state officers and affected parties within timeframes established by the statute. If the agency determines that the misuse of personal information has not occurred and is not likely to occur, the agency does not have to give notice, but must maintain records that reflect the basis for its decision. The requirements of KRS 61.933 also apply if non-affiliated third parties collect, receive, maintain, or store personal information for state agencies. |

| L6318  | <b>Vaccination and/or Spay/Neuter Voucher</b> | This record series documents the vaccination and/or spaying/neutering of animals by an individual who has adopted an animal. Many local animal services automatically vaccinates and spays/neuters any animal it plans to put up for adoption. Occasionally, animals cannot be vaccinated and/or spayed/neutered by the agency. This occurs, for example, when an animal is very young. In these instances, it is responsibility of the adopter to have the procedures conducted. The agency may offer a voucher that allows the adopter to receive a discount on the pet's operation or vaccination from a veterinarian. This procedure must be done within a certain time period. |

| L4661  | <b>Uniform Crime Monthly Report</b>                | This record series documents the felony crimes which have occurred in a law enforcement agency's jurisdiction within a month. The data may be submitted to a state Uniform Crime Reporting Program or directly to the National Uniform Crime Reporting Program (F.B.I.). Most of the local law enforcement agencies submit this report to the Kentucky State Police which in turn submits it to the F.B.I.. This data is used to show nationwide trends and statistics for the purpose of comparison and to learn from other agencies. The crimes documented are Part I and include rape, murder, homicide, manslaughter, assault, burglary, auto theft, arson, robbery, larceny and theft. This report is not mandated but each agency is strongly urged to participate. This report is a must if grant funds are to be received by the local agency. This report deals with the nature of crime and the monetary value of property stolen and recovered as well as those officers injured or killed in the line of duty. |

| L4671  | <b>Property/Evidence Record File (V)</b> | This record series documents the complete inventory of property and evidence seized during the investigation of case, whether a misdemeanor or felony. This is a system of keeping track of the property and evidence and the disposition of that property and evidence. The disposition of the property and evidence may be by destruction, auction, forfeiture or returned to the owner. Also it may become an exhibit in a court case where upon it will remain with the case file. The manual keeping of this record series is being done less and less by law enforcement agencies and is being replaced by electronic record keeping. Matter of fact bar coding is being used in the larger agencies to keep track of the property. |

|        | <b>Retention and Disposition</b>   | Destroy five (5) years after warrant is served.   |
| L4675  | <b>Warrants of Arrest File (Felony/Misdemeanor Served/Un-served). -- Felony and Misdemeanor - Served and Un-served (V)</b> | This record series documents warrants for arrest. A warrant of arrest is a judicial writ authorizing an officer to take an individual into custody. The serving process for warrants varies by locality. In many counties the process is as follows: Felony warrants are issued by the commonwealth attorney based on a grand jury indictment. Misdemeanor warrants are issued by the county attorney. (Bench warrants are issued by the district/circuit court judge if an individual who has been subpoenaed did not appear.) Warrants are sent directly to the county sheriff to be served or they can be held by the issuing authority until they are ready to be served. The sheriff executes the warrant of arrest by locating and arresting the individual named therein. After the arrest the sheriff returns the original warrant to the court. He may retain a duplicate of the warrant for his files. This duplicate of served warrants is possibly useful as a reference to the sheriff for up to one year. The court retains the record copy of served warrants in the case file. If warrants are not served (the sheriff was unable to locate named individual, time expired, case was dismissed, etc.), the sheriff will return the unserved warrant to the issuing authority (commonwealth attorney or county attorney). Depending on locality, unserved warrants may be returned to the circuit court clerk. |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Case or indictment number, issuing court, style of the case including name of individual, personal data (birth date, sex, race, hair, eyes, weight, height, social security no., etc.), language authorizing and directing the arrest, criminal complaint (if a criminal warrant), address of individual, certification/signature of judicial authority.  |
|        | <b>Retention and Disposition</b>   | Retain served copies for one (1) year, then destroy.<br>Return un-served warrants to issuing authority.   |

| L4688  | <b>Domestic Violence Protective Orders File (V)</b> | This record series documents the service (delivery) of a domestic violence protective order, domestic violence emergency protective order or domestic violence summons by the law enforcement agency with jurisdiction in the locale of the residence of the petitioner. KRS Chapter 403 provides the mode of relief in the cases of domestic violence. A domestic violence petition is filed with the court; a summons is then issued for appearance in court; and the court makes a determination on the petition either for, or against the respondent. If against the respondent, a domestic violence order is issued outlining the mode of relief, or in the case of an immediate or present danger an emergency protective order is issued.   |

Program Participation Files</b> | This record series documents participation in the DARE program by the law enforcement agency and students/schools. This is implemented in the schools by the local law enforcement agency throughout the state. This is conducted for the purpose of making young people aware of the dangers of drugs (tobacco, alcohol, marijuana, inhalants and all others). This program is voluntary and each student must sign up for this. The programs are presented by local law enforcement agency personnel at different times during the school year. A census form must be completed by the DARE officer and sent the Kentucky State Police DARE Unit. This is statistical information with no student I.D. information although there is a listing of the principal and classroom teachers. | L4774  | <b>Capital Construction Engineering Project File (V)</b>             | This record series documents the evolution and development of the water and sewage systems. These files document not only construction funded solely by the city but also grants that are funded by the federal government, state government, local developers. In the case of local developers, the agency approves the construction and acquires operation and maintenance responsibilities by contract. The city engineer, the maintenance and operations departments of the agency and the local developers use these files.  |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Plans, shop drawings, materials used, locations, dimensions, as-built plans, specifications, bids & estimates, guarantees, applications, contracts/agreements, bonds, reports; includes periodic inspection reports and final reports, state approval letters and correspondence. This file may include the financial records for this respective project.  |

| L4775  | <b>Operation and Maintenance Manuals for Wastewater Plant(s) (V)</b> | This record series documents manuals for operations and maintenance. It is used by the operation and maintenance personnel for the wastewater treatment plants. It gives suggestions and recommendations for most efficient operation, management and maintenance of the facility. The appendix to this manual contains plans/drawings showing the location and configuration of lines, fittings and processes. Pages are added or deleted periodically to revise and update this manual.   |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Discharge Permits, plans/drawings showing the locations, configurations of the lines, fittings and processes; bench sheets, records of laboratory analysis; operators daily log, construction records, tables of operation, forms, purchase order forms and agency report forms.  |
|        | <b>Retention and Disposition</b>                                     | Retain permanently.   |
| L4776  | <b>Wastewater Treatment Plant Discharge Monitoring Report (DMR)</b>  | This record series documents the quality of the discharge and flow, biochemical oxygen demand, suspended solids, ph, sludge production, bacteriological quality, expenses for treatment, loading rates, facility sizes, and per cent reduction of contaminant of wastewater. Recordings are made daily by the operator of the wastewater plant. Monthly reports are sent to Division of Water in Frankfort, Ky., who in turn sends it to EPA. State government uses this record to see if a plant is meeting state and federal environmental guidelines. Reports are submitted according to size of plant and stream.                 |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Name of the city, address, permit number, discharge number, monitoring period, parameter, quantity or loading, quality or concentration, frequency of analysis, sample type, sample measurement, name/title principal ex. Officer, signature of principal executive, area code, phone number, date.   |
|        | <b>Retention and Disposition</b>                                     | Retain for three (3) years, then destroy.   |
| L4777  | <b>Water Treatment Plant Monthly Operating Reports (MOR)</b>         | This record series documents the number of gallons of water treated, the chemicals added to the water, the turbidity, ph, alkalinity, hardness, free chlorine, fluoride, iron, manganese content of the water; the bacteriological content of the water and the results of the jar test which determines dosage rate. Recordings are made daily by the operator of the water treatment plant. Monthly reports are sent to the Division of Water in Frankfort, Ky.,. Operators use this for operation and management plans. The state government uses these to see if the plant is meeting state guidelines for environmental quality. |

| L5331  | <b>Sales and Use Tax Return</b>  | This record series documents the amount of sales and use tax paid by taxable sewer users to the local agency for purposes of taxpayer reimbursement. Taxable sewer users are billed at 6% of total gross usage for one month as their sales and use tax for sewer service. The local agency calculates the total sales and use tax for one month, completes the return, sends the original to the Revenue Cabinet with a check for the amount due, and keeps a copy of the return.  |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Name and address of local agency; period of return; date of return; agency account number; total receipts; deductions worksheet; total deductions; net receipts; taxable receipts; total taxable amount; sales and use tax; vendor's compensation; tax due; credits; net tax due; penalties and interest; total amount due; signatures of chief executive official of local agency and of return preparer.  |
|        | <b>Retention and Disposition</b>   | Retain for five (5) years, then destroy after audit.  |
| L5332  | <b>Permit File (Kentucky Pollutant Discharge Elimination System (KPDES)(NPDES)</b> | This record series documents the application for National Pollutant Discharge Elimination System permits to discharges into the sewer system. Under the Clean Water Act, the NPDES program regulates discharges to waters of the United States from point sources such as municipal sewage treatment plants and industrial facilities. States may seek authorization to operate the NPDES program, and, today, 45 states and the U.S. Virgin Islands have this authorization. EPA is the permitting authority in unauthorized states, territories and Indian country. This series sets discharge limits on pollutants discharged from wastewater treatment plants. The local agency's engineer or affiliated utilities company completes application for the permit, drawing on wastewater treatment plant discharge monitoring reports. The application is sent to Natural Resources who reviews the application and sets appropriate discharge limits for a given time period. The permit is issued for those limits and that time period. Permit cannot exceed five years. |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Name of the user, address, application, discharge information, amounts of discharge, date and permit info. Permit itself contains: name and address of local agency; name and address of wastewater treatment facility; name of receiving waters; dates of validity of permit; date of permit; appropriate signatures. Permit file will also include supporting documentation noting discharge limitations, monitoring requirements, a schedule of compliance, and any special requirements.  |
|        | <b>Retention and Disposition</b>   | Destroy three (3) years after expiration.   |
| L5365  | <b>Service Work Orders</b>   | This record series documents public works or utilities service that has been rendered. These are issued as a result of customer requests, construction needs or identification of problems. This order is issued and the repairs are made or consultations with customers completed. These are routine jobs such as the filling of street problems, TV cable outage, water problems, sewer problems, electricity problems etc.  |
|        | <b>Access Restrictions</b>   | None  |
|        | <b>Contents</b>  | This record series may contain: Date of service, name of customer, name of person providing service, address, phone #, materials used, hours of labor, equipment used, date completed and signature of person completing the task.  |

| L5835  | <b>Encroachment Permit File (V)</b> | This record series documents permission to work on the highway right-of-way or close at least one lane of a state highway. The permit is completed and sent to the Kentucky Transportation Cabinet, Department of Highways Permit Branch, for approval. The type of encroachment is listed and the dates of the encroachment if known. Information is retained in the local office, Dept. of Highways Permit Branch, and District Office. Once the permit has been approved, there are agreements that are signed by the parties that dictate when, how long, and how the project is to be completed. When work has been completed, the applicants forward notice of completion of Encroachment to their district office. The District Office sends an inspector to inspect the worksite for proper completion. If approved, District Office will send a release. |

| L6323  | <b>Discharge Permit - Unusual Requests</b>                            | This record series documents the application for special permit to discharge unusually large amounts into the sewer system. These are one time occurrences by users and this must be done in order to monitor the discharge. It is up to the user to apply for this permit when there is to be a discharge that is larger than normal. If the user does anything outside of permitted normal discharge this application must be submitted. It is sent to the Division of Revenue for the start of the billing process.  |

| L6326  | <b>Daily Reports</b>  | This record series documents all daily reports by the treatment stations. These include operation of each pump station throughout the government area. By doing this daily report the pump stations are monitored to ensure they are operating normally without incident. This, in part is a preventive measure to make sure that overflows are avoided and that there are no unauthorized spills. These reports include operator's check out report, daily operational report for plants (pumps, gauges etc.), daily maintenance reports, daily lab reports, daily flow readings, daily mechanical check out sheets for pump stations, pump station overflow/bypass reports which documents over flows at any of the pump stations(70 at the moment) throughout the government area. All the pump stations are automated in the pumping of sewage. A telemetry system is in place at all pump stations which sends flow/performance data and alarm situations to the central office. All major stations are checked and maintained on a daily or twice per day frequency. These reports are sent to the Division of Water and Division of Wildlife in case of overflows. Many of these reports are made a part of the Wastewater Treatment Plant Discharge Monitoring Report(DMR) that is sent to the Division of Water and the EPA. |
|        | <b>Access Restrictions</b>  | None  |
|        | <b>Contents</b>   | This record series may contain: Start time and date, name of pump station, name of treatment station, name of person submitting the report, statistical information, and readings.  |

| L6332  | <b>Compliance Monitoring Records (V)</b>       | This record series documents that staff at regulated facilities verify and report compliance with environmental standards and permitted pollution limits as prescribed by law. Facilities are required by regulation or by permit to meet certain environmental standards. Records in this series document the environmental monitoring ( air quality source sampling) performed to show compliance with these standards at regulated facilities. Departmental staff evaluates the monitoring results and supporting documentation to determine if limits have been exceeded and to determine if proper protocol was followed in gathering the results. If the report indicates violations of a required environmental standard, the issue may be addressed by the agency through an enforcement action. |

KRS 224 requires that regulated entities report any release or threatened release of pollutant(s) into the environment in such quantities or concentrations as to cause or threaten to cause an imminent and substantial danger to human health and/or to the environment. Reports of these releases or threatened releases are considered notifications. This series documents all correspondence between the state EPA staff investigating the notification/complaint and the parties involved in the investigation. It also documents all inspections performed as a result of the notification/ complaint and documents all actions the state EPA and regulated Metro Gov't took in response to the notification/complaint.                     |

| L6335         | <b>Compliance Deficiency Notification Records (V)</b> | This record series documents an entity's violations of Kentucky's environmental statutory and regulatory requirements. The documentation will outline remedial measures and/or actions to ensure a return to compliance. These series will include notices of violation, letters of warning, and supporting documentation. These documents usually represent initial attempts to return a facility to compliance prior to referring the violations to the state's EPA Division of Enforcement.  |

| L6336         | <b>Federal Assistance Review Records</b>              | This record series documents proposed projects being conducted by Metro Government and are also seeking federal financial assistance from the Federal Environmental Protection Agency. The federal government requires that all requests for federal financial assistance be routed through the state clearinghouse located in the Governor's Office for Local Government. The state clearinghouse then evaluates these projects and determines whether they could have an environmental impact. If so, the documents are routed to the DEP for review and recommendations. These records document the Department's reviews and recommendations of projects assigned to the Department. |

| L6337         | <b>Environmental Impact Study Records (V)</b>         | This record series documents impact studies. Pursuant to 40 CFR, environmental studies (also known as environmental impact studies) are required to be conducted by a facility or entity on projects that may impact human health and/or the environment. These studies are not required as part of state law. The state EPA only reviews these studies as part of a larger federal government review. If the state EPA has comments on a study, those comments are forwarded to the federal agency in charge of the project. These evaluations or studies are provided to the state EPA by Metro Government and this series documents the review process and comments.                 |

| L6339  | <b>Compliance Evaluation Records</b>   | This record series documents that state and federal requirements are being met. KRS 224 and the regulations promulgated thereto require that facilities comply with state and federal environmental statutes and regulations. This series includes the inspection reports, photographs and other documentation of field inspectors, geologists, and other state EPA staff that perform visits to regulated entities to determine compliance with applicable state and federal regulations.   |
|        | <b>Access Restrictions</b>             | None   |
|        | <b>Contents</b>                        | This record series may contain: Name, location and address of facility, investigation reports, inspection reports, photographs, correspondence, compliance documentation and sample analyses.  |
|        | <b>Retention and Disposition</b>       | Retain for ten (10) years, then destroy.   |
| L6340  | <b>Emissions Inventory Records (V)</b> | This record series documents the process of conducting emissions inventories for fee assessment. KRS 224.20-050 authorizes the state EPA to assess fees against air emissions to fund the air quality control program. These documents include the surveys of the regulated facilities, which determine the potential and actual pollutant emissions from the facilities. These surveys are generally conducted on an annual basis.  |
|        | <b>Access Restrictions</b>             | None   |
|        | <b>Contents</b>                        | This record series may contain: Name, location and address of facility, emissions survey letters, checklists, billing, and related correspondence.   |
|        | <b>Retention and Disposition</b>       | Retain for ten (10) years, then destroy.   |
| L6341  | <b>Ambient Monitoring Records (V)</b>  | This record series documents the processes used for the assessment. Pursuant to KRS 224, the state EPA is required to monitor the environmental quality of areas surrounding facilities to ensure protection of human health, safety, and the environment. Of These series includes records of environmental sampling, documentation that the sampling was performed in accordance with standard practices, sample results, and the documentation proving that results are valid. All documents in this series are part an ambient monitoring initiative and are not directly related to determining if a particular facility or group of facilities is in compliance with applicable environmental regulations. |
|        | <b>Access Restrictions</b>             | None   |
|        | <b>Contents</b>                        | This record series may contain: Monitoring data, quality control records, chain of custody records, lab sheets, sampling plans, and related correspondence.  |
|        | <b>Retention and Disposition</b>       | Retain permanently.  |
| L6342  | <b>Facility Planning Records (V)</b>   | This record series documents planned future wastewater and drinking water service. Pursuant to 401 KAR Chapter 5 and 8 require that facilities plan for future wastewater and drinking water service to the public and submit to these plans to the Department. These plans indicate future coverage areas and the anticipated timelines for extending this service. These plans allow the agency to evaluate system needs and treatment capacity. The series includes plans and records related to utility services.  |

| L6343  | <b>Authorization Records (V)</b>                 | This record series documents the authorization to conduct business activities that are stated in KRS 224. Kentucky law requires that the state EPA issue authorizations to facilities for environmentally related activities that could result in harm to the environment and/or to public health and/or safety. This series may include but is not limited to permits and registrations which allow regulated entities to perform disposal of solid waste, to store, treat or dispose of hazardous waste, to treat wastewater sludge or other bio-solids, to operate petroleum underground storage tanks, to discharge wastewater to waters of the Commonwealth, to install groundwater wells, to construct wastewater treatment facilities, to withdraw water from the waters of the Commonwealth, to construct in a floodplain, to construct drinking water facilities, and to emit air pollutants from a facility. |

|        | <b>Contents</b>                                  | This record series may contain: Authorization applications, approval letters, permits, registration forms, permit modifications, deficiency letters, and related correspondence.   |
|        | <b>Retention and Disposition</b>                 | Destroy ten (10) years after end of authorization period.  |
| L6344  | <b>Corrective Action and Closure Records (V)</b> | This record series documents actions taken by the local government to remediate the site either by removal of the contamination or methods used to manage and monitor the area. KRS Chapter 224 requires that facilities adequately address contamination caused by releases of pollutants to the environment to ensure protection of the environment, safety, and public health. He records may include maps, site sketches, monitoring results, plans, photographs, and other documentation that reviewers use to assess the extent of contamination at a facility and to determine if the actions being taken at a facility are appropriate.  |
|        | <b>Access Restrictions</b>                       | None   |
|        | <b>Contents</b>                                  | This record series may contain: Notice of intent forms, closure applications, site investigations plans, corrective action plans, sample analyses, property records, site visit reports, and related correspondence.   |
|        | <b>Retention and Disposition</b>                 | Destroy thirty (30) years after case closure.  |
| L6345  | <b>Technical Assistance Records (V)</b>          | This record series documents the assistance provided by the state EPA staff to answer questions and provide assistance. KRS 224 allows for state EPA personnel to assist entities in their efforts to comply with Kentucky's environmental requirements. Due to the nature of environmental laws, the regulated public is often confused on how to best comply with environmental regulations. The public may also have non-regulatory questions on how to good stewards of the environment.   |
|        | <b>Access Restrictions</b>                       | None   |

| L6347  | <b>Institutional Control Records (V)</b> | This record series documents the controls, as reviewed by state EPA personnel, that are used to monitor the managed area. KRS 224 provides for the establishment of institutional controls to be placed on a property to ensure that contamination left in place in a managed state is not disturbed and that the property use will be managed to prevent adverse exposures. These controls are usually in the form of an environmental covenant or a deed restriction. In the event contamination is left in place in a managed state, notices are filed at the county clerk's office in the county where the facility is located. The Department is mandated by the Federal Environmental Protection Agency to track institutional controls throughout their existence. |

| L6348  | <b>Program Delegation Records (V)</b>    | This record series documents the delegation process and approval. The Federal government may delegate the primary responsibility for implementing a federal program at a state level pursuant to 40 CFR. To receive program delegation, the agency must implement a program that is at least as stringent as the federal program and be able to demonstrate that it has the capacity to maintain oversight of the program. If the federal government concurs with this request, the state is given primacy to implement the program and the federal government retains a oversight role to ensure the agency maintains its responsibilities under the delegations.  |

| L6349  | <b>Environmental Audits</b>              | This record series documents the evaluation conducted by the facility, the finding of non-compliance, and then documents the processes implemented by the facility to correct the violations. KRS 224.01-40 allows entities to assess their compliance voluntarily and then disclose violations to the state EPA without threat of enforcement provided they address their violations in a timely manner. The Kentucky Legislature established this process to encourage staff to routinely evaluate their facility's compliance and take steps to correct any areas that do not meet the regulatory standards.   |
