

Circuit Court Records

Circuit Court organization will vary based on county and time periods. In general, all records are divided into Civil and Criminal, but many counties have records that include both. Records may also be recorded or filed incorrectly. Researchers should check all indexes within the time frame if they are unable to locate a specific case or record.

- Equity, Chancery, Ordinary, Common Law, Estate Settlements are all sub types of Civil records.
- Criminal records may also be called Commonwealth records.
- Order Books could also refer to Minute Books or Judgement Books.
- Digital Indexes are currently only available in-house.
- Original records and indexes are only used if no other copies are available.
