WHAT OUR USERS SAY

“We are big users of the Large Print book kits...Without the kits, there would be no book club. Without the book club, there would be no group of strong independent women who care for each other in good times and bad. After all, isn't that what community is all about?” - Adair County Public Library

“For what it's worth, I really appreciate the research tools from this state library access, as I've not always had this level of research access in my career.”
- State Employee, KY Division of Water

“We are so lucky to have this program...in their first month, they read about the pack horse library project and at the meeting learned more about Kentucky history. That's probably why we have such a strong library and bookmobile system in our state!” - Kentucky resident

“We have limited tax dollars to purchase a large collection of anything, having KDLA to supplement our offering provides a wider range of topics to share with our patrons.” - Nicholas County Public Library
