Our Vision

To create a comprehensive summer program to combat all summer learning loss, encourage whole family involvement, and promote 21st century skills.
Prep Work

- Research, Research, Research
- Meeting with Director
- Meeting with Assistant Principal
- Attending Summer Reading Training
- Meeting with Summer Learning “Committee”
- Staff Meeting Discussions
Science Squad Leader

- Read a non-fiction book about a science or technology topic that interests you.
- Check out a science experiment book and pick an experiment to complete at home. Fill out an experiment sheet as you complete the process.
- Design your perfect robot. Draw a picture and write an explanation of its purpose.
- Attend any program, including lunch, and complete an experiment or S.T.E.A.M. project with us.
- On a clear night stargaze with your family. Draw what you see and label any constellations you find.
Henry County Hero

- Read a book about a community helper and write a thank you note to a helper in our community.
- Visit one of the parks in Henry County. Write a story or draw a picture about your adventure there.
- Create at least two bookmarks that the bookmobile librarians can distribute to the people and places they visit.
- Volunteer, donate to a local charity or do something nice for a neighbor or a friend.
Other Popular Projects

- Tangrams (Math Madness)
- Read a book about farming and write a thank you note to a local farmer. (Green Go Getter)
- Complete the bean seed experiment (Green Go Getter)
- Make your own catapult (Champion of Creativity)
- Create a homemade musical instrument (Champion of Creativity)
- Made a bird feeder out of recycled materials (Champion of Creativity)
Bonus Badges
What We Learned

- Staff Buy In is Important
- Parents Are a Much Harder Sell Than Staff
- Kids Like Seeing Their Work in the Library
- Community Involvement in Process is a Must
Year 2 Vision

To continue with a comprehensive summer program that includes whole family involvement, 21st century skills, and social and emotional learning.
Popular Projects

- Study how air works by making your own balloon powered car. (Science Squad Leader)
- Create a chromatography butterfly. (Science Squad Leader)
- Be a hero and spread kindness through your community. Write or draw a picture about what you did. (Henry Co Hero)
- Make a variety of paper airplanes and compare them. (Excellence in Engineering)
- DIY Stress Ball (Master of Mindfulness)
- Complete the dancing food experiment. (Rock-n-Roller)
- Make your own puppet. (Storyteller)
Bonus Badges
What We Learned

● PR should reflect badges
● Need to include more SEL activities
● Community/School involvement in planning year 2 is just as important
Where are we going?
