## Records Retention Schedule

Prepared by the State Records Branch  
Archives and Records Management Division

Approved by the State Libraries, Archives, and Records Commission

Kentucky Department for Libraries and Archives

This records retention schedule governs retention and disposal of records created, used and maintained by Kentucky's public colleges and universities. **College and university records in Kentucky can only be disposed of with the approval of the State Libraries, Archives, and Records Commission (the Commission). If records do not appear on the State University Model Records Retention Schedule, as approved by the Commission, colleges and universities should not destroy those records.** This agency-specific schedule was drafted by college and university personnel and Archives and Records Management Division staff, and reviewed and approved by the Commission. This schedule provides the legal authority for public college and university personnel to destroy the records listed, after the appropriate retention periods have passed.

This retention schedule applies to state college and university records and information regardless of how it is created or stored. For example, information created and sent using e-mail is as much a public record as materials created or maintained in paper. Kentucky law defines public records, in part, as "documentary materials, *regardless of physical form or characteristics*, which are prepared, owned, used, in the possession of or retained by a public agency" (KRS 171.410[1]). This means that records management standards and principles apply to all forms of recorded information, from creation to final disposition, regardless of the medium. Records retention scheduling is important in developing, using, and managing computer systems and other electronic devices. Records management practices encourage cost-effective use of electronic media through accurate retention scheduling and legal destruction of records.

**All college and university employees are responsible for maintaining records according to the State University Model Records Retention Schedule, whether those records are stored electronically or in paper. Information must be accessible to the appropriate parties until all legal, fiscal, and administrative retention periods are met, regardless of the records storage medium.**

This retention schedule covers the content of records created by public colleges and universities, including records created or stored using computers and computer systems. The *General Schedule for Electronic and Related Records* applies to records related to computers or a computer system. Examples of these include system documentation and use records, backup files, or website format and control records.

### **Audits and Legal Action**

College and university records may be subject to fiscal, compliance or procedural audit. If an college or university should maintain records longer than the approved retention period, as may be the case with some federal audits, then all affected records should be retained until the audit has been completed and the retention period met. In no case should records that are subject to audit be destroyed until the audit has been completed and retention periods met, or the records have been officially exempted from any audit requirements.

Records may also be involved in legal or investigative actions, such as lawsuits, administrative hearings or open records matters. These records must be retained at least until all legal or investigative matters have concluded, regardless of retention period. This includes all appeals of lawsuits.

### **Vital Records**

Vital records are essential to the continued functioning of a college or university during and after an emergency. Vital records are also essential to the protection of the rights and interests of

colleges and universities and of the individuals for whose rights and interests they have responsibility. Vital records are identified in the retention schedule with a (V).

### **Confidential Records**

While all records created, used and maintained by college and university personnel are public records, not all of those records are open to public inspection. Whether a record is open to public inspection is determined by the state's Open Records laws and other relevant state or federal statutes and regulations. Restriction of public inspection of confidential records may apply to the whole record or only to certain information contained in the record.

Kentucky's public records are considered open for public inspection unless there is some specific law or regulation that exempts them. College or university personnel who believe certain records are confidential should submit a citation from Kentucky Revised Statutes, Administrative Regulations, Code of Federal Regulations, or similar authority. **State college and university heads have the responsibility to know all the appropriate confidentiality laws, statutes and regulations that apply to the records maintained by their respective institutions and to see that those laws are enforced.** Even though a record series may or may not be marked confidential on a retention schedule, contradictory laws or regulations that are passed after the schedule has been approved must be honored.

### **Copies of Records**

College and university personnel often make copies of records for internal use or reference purposes. Colleges and universities should designate one copy as the official copy and make sure it is retained according to the records retention schedule. Agencies can destroy all other copies when no longer useful. Please note that unless otherwise specified by a designated retention period, Agencies may dispose of copies when no longer useful without submitting a Certificate of Destruction.

### **Updating the Retention Schedule**

Per 725 KAR 1:010, the head of each public college or university is required to designate a member of his or her staff to serve as a records officer. The records officer represents that college or university in its records-related work with the Archives and Records Management Division. The records officer is responsible for assisting the Archives and Records Management Division in drafting the State University Model Records Retention Schedule, and in finding any schedule updates to bring before the Commission. The retention schedule should be reviewed on a regular basis to suggest appropriate changes to the Commission.

|---------------|--------------------------------------|--|
| <b>U0100</b>  | <b>Correspondence - Official (V)</b> | This series documents the major functions of an office and important events in its history. It documents major changes in policy and/or procedures, and admission requirements, standards in curriculum, proposals, etc.   |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                      | Series contains: Memoranda, letters, reports, activities, event announcements  |
|               | <b>Retention and Disposition</b>     | Retain until no longer useful, then transfer to the University Archives for permanent retention.   |
| <b>U0101</b>  | <b>Correspondence - General</b>      | This series documents the general operations of each department within the university. This correspondence is not considered crucial to the preservation of the administrative history of each department. Generally, it is used in response to outside inquiries for catalogs, admission applications, copies of publications, etc. or it is used in the form of memos between departments of the university  |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                      | Series contains: Memoranda, correspondence   |
|               | <b>Retention and Disposition</b>     | Retain no longer than two (2) years, then destroy.   |
| <b>U0102</b>  | <b>Legislative File</b>              | This series documents a working file which may be either a review of actions taken by the General Assembly or legislation proposed by university personnel. It is maintained by university officials to allow for available reference of legislative activity that relates to specific programs. The series may also contain information tracking proposed legislation, proposed administrative regulations from universities, or changes brought before the General Assembly. |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                      | Series may contain: Date of session; proposed legislative actions or proposed administrative regulations; correspondence   |
|               | <b>Retention and Disposition</b>     | Retain for five (5) years then destroy.  |
| <b>U0103</b>  | <b>Manuals, Operating</b>            | This series documents institutional, departmental, and program procedures for conducting daily business. It also documents emergency activities outside the scope of routine operations. These manuals are more specific and more directly related to day-to-day university operations than Series U0124, Policies and Procedures, which represent the general mission and vision of the university.   |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                      | Series may contain: Operation manuals, standard operating procedures (SOPs), unit-level organization charts, emergency manuals.  |
|               | <b>Retention and Disposition</b>     | Retain in creating unit until no longer useful for administrative purposes. Transfer to College/University Archives (or designated institutional repository) where items can be appraised for historical value and retained permanently.   |

| <b>Series</b> | <b>Records Title and Description</b>  | <b>Function and Use</b>   |
|---------------|---|---|
| <b>U0104</b>  | <b>Minutes (V)</b>  | This series documents the official record of proceedings of meetings. It provides information about the activities of the University, the actions it took in regard to the issues brought before it, and the decisions rendered. This series also includes any materials distributed at meetings, whether those materials are considered for a vote nor not. These materials may include but are not limited to: governing regulations, bylaws and constitutions. Minutes of meetings constitute adequate and proper documentation of essential university transactions and functions, as required in KRS 171.640.  |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Date, members present, appeals heard, appellant's name, any materials distributed at the meeting, discussions, decisions rendered, motions made, resulting recommendations. Examples of these bodies include: Board of Trustees, Board of Regents, faculty senate, faculty meetings, other policy making bodies.   |
|               | <b>Retention and Disposition</b>  | Transfer one (1) copy to the University Archives for permanent retention. Retain one (1) copy permanently in the creating unit. Retain excess copies until no longer useful, then destroy.  |
| <b>U0105</b>  | <b>Recordings of Meetings</b>   | This series documents the mechanical recording of meetings of university boards, or other university-related entities that establish policy, and from which minutes of the meetings are prepared.   |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains audio or video recordings of meeting.   |
|               | <b>Retention and Disposition</b>  | Retain until thirty (30) days after the meeting at which minutes are approved, then destroy. If minutes are disputed, retain until resolution of dispute, then destroy. Because meeting minutes are not always verbatim transcriptions, recordings of meetings may be forwarded to the University Archives and retained as supporting documentation.  |
| <b>U0107</b>  | <b>Photographic File (Film or Digital Images that Document University Activities)</b> | This series documents public college or university activities and functions in a photographic format. This series may be film or digital images. Such activities may document the administrative functioning of a university, its programs and operations. Records in this format (if determined to be archival), often replace or supplement more traditional kinds of recordkeeping, and may be critical to an understanding of the administrative history of a university. When creating records in this format, university personnel should properly identify the event being photographed and the participants. Digital images in this series do not include scanned images of other records already contained on the University Model Schedule. |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Photographic images and accompanying explanatory materials and finding aids or metadata.   |
|               | <b>Retention and Disposition</b>  | Transfer to the University Archives for appraisal and final disposition.  |
| <b>U0108</b>  | <b>Press Releases</b>   | This series represents notices distributed to media outlets regarding public university activities, programs, etc. It serves as a reference for University annual reports and the historical record. Topics and information are varied. Press releases also have long-term value as references for a university's public information department's activities and work.  |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contain information about University events, activities personnel and programs   |
|               | <b>Retention and Disposition</b>  | Retain one (1) copy of each release permanently in the University Archives. Retain excess copies until no longer useful, then destroy.  |

| <b>U0118 Theses/Dissertations</b>                               | This series represents theses, dissertations, or other final projects that are completed by students enrolled in programs that require them. The thesis or dissertation is a report of research conducted by the student on an agreed upon subject chosen by the student and the advisor and generally completed with the assistance of a committee for that student. The student submits a draft; changes or corrections are suggested and returned to the student for a final version. A final copy may be sent to the graduate office. An official copy is retained by the library in the theses/dissertations collection. This series also includes graduate or undergraduate projects that are not considered theses or dissertations, but that are necessary for completion of a degree.  |

Such activities may document the administrative functioning of a university, its programs and operations. Information in this format (if determined to be archival), often replaces or supplements more traditional kinds of recordkeeping, and may be critical to an understanding of the administrative history of a university. When creating records in these formats, university personnel should properly identify the event being recorded and the participants. Additionally, each recording should be titled and properly dated and maintained in its original order, to facilitate transfer to the University Archives, when appropriate. This series does not include records scheduled according to content, such as Series U0105, Minutes - Tapes or Notes. Series U0105 includes audio or video recordings of meetings, which are used to create meeting minutes. It also does not include surveillance recordings, which are covered by Series U0132.                          |
| <b>Access Restrictions</b>                                      | Universities should consult legal counsel regarding open records matters.   |
| <b>Contents</b>   | Series contains: Audio or video recordings; may also contain: events, date, scripts, contracts, releases, finding aids  |
| <b>Retention and Disposition</b>                                | Transfer one (1) copy to the University Archives for appraisal and final disposition. Retain excess copies until no longer useful, then destroy.  |
| <b>U0120 Research Data (Sponsored or Non-Sponsored) (V)</b>     | This series documents research data created by faculty, staff, students, post-doctoral fellows, scholars and visiting scientists in the course of their scholarly activities and in conducting sponsored activities funded by external agencies. Research data are used to test hypotheses and to form an understanding of our world. Research data are the result of original observations and activities of a study and are necessary for reconstruction and evaluation of the final report of the project. Typically, the university owns the data, but may choose not to claim ownership if there is a specific condition to the contrary, or if the activity is considered to be the unrestricted property of the author. Generally, research data would not be needed beyond five years after submission of the final report. However, at the discretion of the university, some research data may be appropriate for long term retention, for use in subsequent studies. Also, requirements specified by the funding agency's regulations may require a longer retention period. |
| <b>Access Restrictions</b>                                      | KRS 61.878 (1)(a) patient identity. Universities should consult legal counsel regarding open records matters.   |
| <b>Contents</b>   | Series contains: Technical data; computer software; laboratory worksheets; memoranda; notes or exact copies that are the result of original observations and activities of a study; case history records; and study protocols (synthetic compounds, organisms, cell lines, viruses, cell products, cloned DNA, as well as DNA sequences, mapping information, crystallographic coordinates, plants, animals and spectroscopic data.)  |
| <b>Retention and Disposition</b>                                | Retain until five (5) years after submission or publication of the final project report for which the data were collected, whichever is longer, and audit, then destroy. If retention requirements specified in funding agency's regulations are longer, the agency requirements will apply. Also, at the discretion of the university, some data may be retained longer for use in subsequent projects. If records are part of a research misconduct investigation, retain until seven (7) years after end of the investigation, then destroy.   |

| <b>U0122</b>  | <b>Nonbusiness Related Correspondence</b>                       | <p>This series represents e-mail and other correspondence that is commonly found at all levels of an organization and is not related to university business. It consists of messages of a purely personal nature, spam, and other unsolicited correspondence. (See contents for more detailed descriptions.) University staff should delete these records upon receipt because they are not business-related, and because universities may be required to produce them under legal orders or open records requests. This type of correspondence is problematic for many reasons: Spam and unsolicited messages (1) tend to exist in tremendous quantities, which can overwhelm an e-mail system; (2) are usually unwanted; (3) can be offensive; and (4) are potentially virus laden. Personal messages (1) take away from an employee's work time; (2) may be interspersed with business related e-mail, making management difficult and exposing the agency to potential embarrassment and legal risk; and (3) may be a violation of a university's e-mail and Internet acceptable use policy. Given the nature of e-mail, the existence of this type of correspondence is inevitable and agencies are encouraged to train employees to delete it as soon as possible. See "Guidelines for Managing E-mail in Kentucky Government" for more information on managing e-mail correspondence.</p> <p><b>Access Restrictions</b> Universities should consult legal counsel regarding open records matters.</p> <p><b>Contents</b> Nonbusiness related correspondence is incoming and outgoing correspondence that may consist of: Personal messages - While a certain amount of personal material maybe acceptable, abuse of the system could lead to disciplinary action and even dismissal. All universities should have an appropriate use policy that determines the amount of personal messages acceptable on the system. Spam is the term for electronic junk mail. It is completely unsolicited and unwanted. Spam mail can be offensive in nature, can carry viruses and is sent as a way of disrupting normal business operations. Unsolicited messages are e-mail that may be unwanted, but is somewhat business related such as advertising from vendors and non-work related e-mail from coworkers such as jokes and forwards, miscellaneous news articles, non-work related announcements, etc.</p> <p><b>Retention and Disposition</b> Delete all nonbusiness related e-mail immediately. Universities are encouraged to train all employees with e-mail access to use the system for appropriate, work-related activities and to remove all nonbusiness related records immediately.</p> |
| <b>U0123</b>  | <b>Request to Inspect Public Records (Open records request)</b> | <p>This series documents the requests to inspect, research, or review public records created within public universities. In 1976, the General Assembly enacted the Open Records Act, KRS 61.870 to 61.884, which established a right of access to public records. All public records, regardless of format, must be open for inspection unless the records are exempted by one or more of the exemptions found in KRS 61.878, or are specifically exempted by another statute. All public universities are required to make non-exempt public records available to any requestor, and to provide suitable facilities for the exercise of the right of inspection. Each agency must adopt rules and regulations that conform to the Act. Those include: identification of the principal office of the agency and its regular work hours; title and address of the official custodian of record; fees charged for copies; and the procedures to be followed in requesting public records. This series may be in either paper or electronic format.</p> <p><b>Access Restrictions</b> Universities should consult legal counsel regarding open records matters.</p> <p><b>Contents</b> Series contains: Name of agency; date; records requested to inspect; number of copies of each document; cost; signature of requestor, company, address, phone; disposition of the request; signature of custodian, name of agency, amount received, date. May contain: other related correspondence; copy(ies) of records requested.</p> <p><b>Retention and Disposition</b> Retain for three (3) years, then destroy.</p>  |

| <b>U0124</b>  | <b>Policies and Procedures</b>  | This series documents upper level administrative policies of a college or university. Policies and procedures are developed to provide a framework in which universities manage their programs and to assist staff in their administration. Policies guide and help determine present and future decisions. They are an authoritative communication that sets a general course or method of action. These policies are more general and overarching than Series u0103, Manual, Operating, which reflect more specific day-to-day operations.  |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series may contain: institutional, departmental, and program mission and goals; administrative and general regulations; policy statements; responsibilities of division; program objectives; organizational charts.   |
|               | <b>Retention and Disposition</b>  | Retain one (1) copy of all editions permanently in the office of origin or transfer to College/University Archives (or designated institutional repository) where items can be appraised for historical value and retained permanently.   |
| <b>U0125</b>  | <b>Itinerary File</b>   | This series documents the travel or activity plans for university personnel. The purpose of an itinerary is to advise others, including the press in many cases, of the date, time, place, and purpose of the activity. Many itineraries are created days, weeks, or months in advance so that interested parties can monitor external activities of the administrator. The series is subject to change on a daily basis and has limited informational value. This includes the calendar function in e-mail programs such as Microsoft Outlook.   |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Department; name of administrator; date; week or month of itinerary; list of destinations and organizations; dates and times of appointments; topics of remarks; activities  |
|               | <b>Retention and Disposition</b>  | Retain for two (2) months, then destroy.  |
| <b>U0126</b>  | <b>Records Transmittal File - Permanent Records (Locator copy - Original in Archives and Records Management Division)</b> | This series documents the transfer of custody of records of continuing or historical value from the creating agency to the Department for Libraries and Archives, as provided for in the State University Model approved records retention schedule. The transmittal is completed by the College or University's records officer and specifies the records that are being transferred by series number, title and date span. It provides the College or University with an index to the records that have been transferred and provides specific information as to the location of the records in the State Archives Center, should their retrieval be necessary. Unless restricted, records housed in the State Archives are available for research by the public, through the Archives Research Room. |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Cabinet/local jurisdiction; department/local government office; division; branch/unit; retention schedule date; total containers; permanent; destruction date (none); accession number; compiler; date; shelver; volume; location in center; box, roll, book, bundle, other; series number; title of record; date span of record; access restricted/statute; signature/date of records officer; continuation page (if applicable)  |
|               | <b>Retention and Disposition</b>  | Retain permanently in office of origin.   |

| <b>U0127</b>  | <b>Records Transmittal File - Non-permanent records (Locator copy - Original in Archives and Records Management Division)</b> | This series documents the transfer of custody of records of non-permanent records from the creating college or university to the State Records Center, Department for Libraries and Archives, as provided for in the State University Model approved records retention schedule. The transmittal is completed by the college or university's records officer and specifies the records that are being transferred by series number, title and date span. It provides the college or university with an index to the records that have been transferred and provides specific information as to the location of the records in the State Records Center. Records that are transferred to the State Records Center are generally administrative in nature and are still needed for the conduct of college or university business. Information from the locator copy of the transmittal is essential when requests to return records to agencies are made. |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Cabinet/local jurisdiction; department/local government office; division; branch/unit; retention schedule date; total containers; permanent/yes or no; destruction date; accession number; compiler; date; shelver; volume; location in center; box, roll, book, bundle, other; series number; title of records; date span of records; access restricted/statute; signature/date of records officer; continuation page (if applicable)   |
|               | <b>Retention and Disposition</b>  | Retain until one (1) year after destruction of records, then destroy.   |
| <b>U0128</b>  | <b>Microfilm Quality Evaluation Form</b>  | This series documents the quality control process used to determine whether microfilm produced either by the Archives and Records Management Division, private certified vendors, or public colleges and universities has met quality control requirements and archival standards as set forth by the Department for Libraries and Archives. The form provides for the destruction of the hard copy records, providing all requirements and standards have been met. It is used to advise colleges and universities that the records can be destroyed or that they must be retained, due to the film not having met all requirements. If the film passes all requirements and the hard copy is destroyed, it then becomes the copy of record and is used in lieu of paper. The silver master of all film where the retention of the record is seven years or greater must be stored in the Division's vault, as security backup to the records.         |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Agency, unit, date, roll number, schedule date, series number, title of records on schedule, inclusive dates, test roll number, density, resolution, reduction ratio, targets, security copy stored at Archives and Records Management Division, tested by date, records destruction approved/disapproved, signature of agency records officer, signature of State Archivist, and comments.  |
|               | <b>Retention and Disposition</b>  | Retain permanently in office of origin.   |
| <b>U0129</b>  | <b>Records Destruction Certificate File</b>   | This series documents that destruction of records has been carried out by public colleges and universities, in accordance with the State University Model records retention schedule. The series identifies the records being destroyed, the date span and amount, usually expressed in cubic feet, and the method of destruction. College and university records officers are responsible for ensuring that destruction requirements established by the Department are appropriately carried out on their campuses. The series documents that retention schedules are being implemented and that records that have ceased to have value are destroyed. The timely destruction of records whose retention periods have been met result in a savings to government. Colleges and universities can incur liabilities if records are destroyed that have not had a retention period approved for them by the State Archives and Records Commission.        |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>   | Series contains: Planned destruction date; administrative units; schedule date; date of destruction; accession number; series number; title; security microfilm; confidential records; date span; cubic feet/rolls; unit number; location at state facility; signature of records officer   |
|               | <b>Retention and Disposition</b>  | Forward one copy to Kentucky Department for Libraries and Archives, Archives and Records Management Division. Retain one (1) copy permanently at university.  |

| <b>U0131</b>  | <b>Maps</b>  | This series represents maps, intended for public distribution, which consist of images and/or data plotted to show geographic points at which various objects, incidents or phenomena occur across the Commonwealth. Examples of information on these maps include, topographical or geological features, land use planning data or archaeological sites in Kentucky. These maps may be printed and maintained in paper or maintained in electronic format. Electronic maps may be static images or dynamic packages produced by a Geographic Information System (GIS). Some of this information is made available through the KYGEONET, Kentucky's enterprise geographic information system. The KYGEONET is Series 05431, scheduled under the Division of Geographic Information. |

|               | <b>Retention and Disposition</b>   | Universities should capture one (1) copy of static maps or take periodic snapshots of GIS data not captured in the KYGEONET, for permanent retention. Data should be updated when superseded. To help determine rate and methods of capture, university staff can contact Archives and Records Management Division staff. Retain duplicate copies and copies made for internal reference until no longer useful, then destroy.  |
| <b>U0132</b>  | <b>Surveillance and Access Security File</b>                                   | This series consists of records created in the course of monitoring physical spaces at state colleges and universities, including surveillance video and records created to designate individual access permissions to facilities and resources. These records primarily serve a security function as they may be used to identify persons who cause disturbances or violate laws. (For visitor records to University Archives, special collections, or other research facilities, use U0506).  |

Retain rejected applications for one (1) year, then destroy.  |
| <b>U0134</b>  | <b>Investigation File</b>            | This series represents investigation files created and maintained by the colleges, departments, divisions or other academic or administrative units, such as Risk Management, within a college or university. The files document evidence collected and steps taken during the investigations, which may or may not result in legal action. This series also covers investigation files created and maintained by the university's legal office that do not result in legal action. Legal retention requirements for sexual harassment investigations: 34 CFR 106.45(b)(10) – A recipient must maintain for a period of seven years records of each sexual harassment investigation, any appeal and result therefrom, any informal resolution and result therefrom, all training materials, and responses. Files for Investigations that result in legal action are covered by Series U2000, Litigation File. |

| <b>U0138</b>  | <b>Personal Information Security Breach Investigation/Notification File</b> | This series documents a university's activities related to a breach of sensitive information it collects, stores, or maintains. Effective January 1, 2015, KRS 61.933 requires state universities that are notified of or determine that a breach has occurred in security relating to personal information they collect, maintain, or store, to notify parties listed in the statute and begin a reasonable and prompt investigation within no later than seventy-two (72) hours of discovery or notification of the breach. If the university determines that a security breach has occurred and that the misuse of personal information has occurred or is reasonably likely to occur, it must notify certain state officers and affected parties within timeframes established by the statute. If the university determines that the misuse of personal information has not occurred and is not likely to occur, the university does not have to give notice, but must maintain records that reflect the basis for its decision. The requirements of KRS 61.933 also apply if non-affiliated third parties collect, receive, maintain, or store personal information for state universities. |

Per OSHA regulations, this information must be noted on container labels, communicated to specific parties, and maintained in certain records. Universities must obtain Safety Data Sheets (SDS) for specific hazardous materials and display them prominently in the workplace. As an alternative to retaining SDS, universities may keep records identifying the substance used, where it was used and when it was used.  |

| <b>U0230</b>  | <b>Annual or Summary Financial and Audit Reports (V)</b>  | This series documents the annual accounting of the fiscal status of a University, along with internal and external audits of university business and finance. Per KRS 164A.565(8), the governing board of each university makes an annual report of financial activity to the Council on Postsecondary Education. Audits may be completed by independent auditors, college or university internal audit departments, or the Auditor of Public Accounts. They may be fiscal, programmatic or compliance audits. Fiscal audits of postsecondary educational institutions must be completed per KRS 164A.570, which requires that findings and recommendations be forwarded to the Governor, the Secretary of the Finance and Administration Cabinet, the Auditor of Public Accounts, the Director of the Legislative Research Commission, the president of the Council on Postsecondary Education, and members of the college or institution's governing board.  |
|               | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>   | This series consists of the University's annual financial reports, audit reports, and other records that formally document the University's fiscal and performance reporting.  |

| <b>U0238</b>  | <b>Budget and Audit Work Papers</b>   | This series documents the compilation of information, in draft form, used to complete university operating budgets. The work papers, which may be either manually or electronically created, are developed by campus administrative units and are used to support final documentation which goes forward for inclusion in the university's formal operating budget. The series may be used to determine expenditures, disbursements, and the amount of funds that will be needed to continue to support the financial needs of individual administrative units. The work papers provide insight into the decision making process regarding actual budgetary needs. The series provides supporting documentation which may be useful in the preparation of future budgets. This series also contains the records that document procedures followed, tests performed, information obtained, and conclusions reached during audits of or performed by a university. These provide the supporting documentation for the issuance of a final budget or audit. This series does not include the University Operating Budget or the final audit, which are covered under Series U0203, Operating Budget - University, and Series U0230, Annual or Summary Financial or Audit Reports. |

| <b>U0239</b>  | <b>General Financial Records</b>     | <p>This series represents general records that document the acquisition and disposition of funds during the course of University business. Records of this type may be subject to audit are those that relate to financial transactions or represent an audit trail. Audits may be fiscal, procedural, or compliance in nature, and may be conducted by state, federal, or internal authorities. Fiscal audits of postsecondary educational institutions must be completed per KRS 164A.570. Unless otherwise supported by Kentucky Revised Statutes or federal regulations specifying a longer period, the retention requirement for records subject to audit, as approved by the Auditor of Public Accounts, is three years. If a university is aware of the need to maintain records longer than the standard three year period, as may be the case with some federal audits, all affected records should be retained until the final audit report has been completed and the retention period met. In no case should records which have been identified as subject to audit be destroyed until the audit has been completed and retention periods met, or the records have been officially exempt from any audit requirements. A state-level audit is considered completed for all public universities once the State Auditor has released the Single Statewide Audit of Kentucky (SSWAK) for a given fiscal year, usually at the end of March or beginning of April for the preceding fiscal year.</p> <p><b>Access Restrictions</b> KRS 61.878(1)(a) - Personal information only. |               | <b>Contents</b>                                       | Series includes request to dispose of surplus property (description of property and reasons it is surplus); justification for determination by the governing board of property as surplus; records documenting sale of property.   |
|               | <b>Retention and Disposition</b>                      | Retain for three (3) years or until after audit, whichever is longer, then destroy.  |
| <b>U0249</b>  | <b>Vendor Lists</b>                                   | This series documents vendors with which public colleges and universities do business. These lists are utilized to issue purchase orders and pay vendors. The file expands and contracts as vendors are added and deleted.   |
|               | <b>Access Restrictions</b>                            | KRS 61.878(1)(a) - Personal information only. Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                                       | Series contains: Data related to the issuance of a purchase order or payment of a vendor. The list includes vendor address, telephone number, federal employee identification number, and payment terms.   |
|               | <b>Retention and Disposition</b>                      | Maintain current file. Retain non-current lists until obsolete, then destroy.  |
| <b>U0250</b>  | <b>Electronic Funds Transfer Supporting Data File</b> | This series documents information provided to banks by public university staff to facilitate the electronic transfer of funds. University staff create the files and upload them to the bank's system. Examples of these transfers include student payments, university accounts payables and payroll. A new file is created each time money is transferred, and files are compared to the day's transactions to verify accuracy. Once a file is successfully uploaded, there is no need for university to retain the supporting data file. Total funds transferred are reflected in reports and bank statements.  |
|               | <b>Access Restrictions</b>                            | KRS 61.878(1)(a) - Personal information only. Universities should consult legal counsel regarding open records matters.  |

|---------------|--------------------------------------|---|
| <b>U0300</b>  | <b>Awards Committee Records</b>      | This series documents the administration of awards given by Kentucky's public universities. Awards may be given to students, administration, faculty, staff, or private citizens for academic work, athletics, teaching, service, or any other appropriate category. Award committees generally accept nominations, coordinate judging, selects a winner, and bestow the award. These records document the process of winnowing nominees to finalists and selecting a winner. The process and the criteria vary widely from award to award. The committee itself selects from among the finalists by using critical review documents, a numeric scoring system, or coming to a consensus. |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>                      | Series includes but is not limited to: Minutes of committee meetings, reviews of nominated works, scoring sheets, correspondence with judges, and other related records documenting the selection process.  |
|               | <b>Retention and Disposition</b>     | Retain until no longer useful, then transfer to University Archives for permanent retention. The University Archivist may designate another appropriate repository for permanent retention of selected records to be administered under guidelines approved by the University Archivist.  |
| <b>U0301</b>  | <b>Award Nominee Files</b>           | These records document nominees to receive awards from public universities. Awards may be given to students, administration, faculty, staff or private citizens for academic work, athletics, teaching, service, or any other appropriate category. The process of selecting a winner and the criteria by which the winner is chosen from among the nominees vary widely from award to award. The committee itself selects from among finalists by using critical review documents, a numeric scoring system, or coming to a consensus.   |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>                      | Series may contain but is not limited to nomination forms; a nominee information form, curriculum vitae and biographical information of the nominee, letters of support for the nomination, photographs of the nominee, correspondence between the nominee and committee; a copy of the nominated work.   |
|               | <b>Retention and Disposition</b>     | Retain nominee files for winners permanently in the University Archives. The University Archivist may designate another appropriate repository for permanent retention of selected records to be administered under guidelines approved by the University Archivist. Retain remaining records for five (5) years or until the work may no longer be re-nominated, whichever is longer, then destroy. Some award programs may elect to retain these for a longer period.   |
| <b>U0302</b>  | <b>Award Presentation Materials</b>  | These records document winners' acceptance of awards given by public universities. Awards may be given to administration, faculty, staff, or private citizens for scholarship, athletics, teaching, service, or any other appropriate category. Awards may be accepted at public presentations, lectures, or in other formats, and may be documented through video formats, texts such as speeches, or by other means.  |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.   |

This series may also include recordings or records of the award ceremonies and banquets.  |
|               | <b>Retention and Disposition</b>     | Transfer one copy to University Archives for permanent retention.   |
| <b>U0303</b>  | <b>Award Winning Works</b>           | This series represents the works for which individuals win awards at public universities. In cases where the recipient wins an award for a particular work, a copy of the work should be maintained to document the work and/or ideas for which the award was given.  |
|               | <b>Access Restrictions</b>           | Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>                      | Series contains books, articles, musical recordings and scores, or other published sources that earn university awards.   |
|               | <b>Retention and Disposition</b>     | Transfer at least one (1) copy to the University Libraries for permanent retention.   |

|               | <b>Retention and Disposition</b>   | Retain record copy permanently in creating unit, which in some universities may be the Registrar.   |
| <b>U0435</b>  | <b>Graduation Lists</b>  | This series documents students who have completed all graduation requirements and are therefore eligible to graduate in a given term.   |
|               | <b>Access Restrictions</b>   | KRS 61.878(1)(a) - Personal information only. Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>  | Series contains: Semester, student name, department, degree conferred.  |
|               | <b>Retention and Disposition</b>   | Transfer one (1) copy of each list to the University Archives for permanent retention. At some universities, these may also be retained in the Registrar's Office. Retain excess copies until no longer useful, then destroy.   |
| <b>U0436</b>  | <b>Medical Records</b>   | This series documents medical diagnoses and courses of treatment administered by licensed physicians to any college or university students. It is also used as verification or treatment for insurance purposes. These records are used to document students' medical conditions that may require some action on the part of the university. They do not document treatment of students at university facilities. Treatment is documented in Series U1700, Patient File (Emergency Psychiatric Services); U01701, Dental Records - Adults; and U1704, Patient Medical File. |
|               | <b>Access Restrictions</b>   | 20 USC Section 1232g et seq.; KRS 164.283 & KRS 61.878(1)(a) - Personal information. Universities should consult legal counsel regarding open records matters.  |

|---------------|---|--|
| <b>U0470</b>  | <b>Course Proposal File (Departmental copy)</b> | This series documents proposals to add, drop or change courses in the university curriculum. Faculty committees submit to respective departments recommendations for changes in course offerings. The departments then forward the accepted recommendations to the appropriate academic council for final approval. Every department reviews its curriculum on an ongoing basis. Prior to final approval of the proposals, a review by university staff is conducted, usually by library staff, to determine if materials are available on campus to accommodate the changes. Proposals are documented in the minutes of the approving body. |
|               | <b>Access Restrictions</b>                      | Universities should consult legal counsel regarding open records matters.  |

|               | <b>Retention and Disposition</b>                | Retain approved proposals until one (1) year after notification of approval, then destroy. Retain denied proposals until notification of denial, then destroy. A record copy is maintained permanently in the minutes of the approving body.   |
| <b>U0472</b>  | <b>Applications for Scholarships File</b>       | This series documents the application by students for academic (merit-based) scholarships. The completed applications are submitted to Admissions, or appropriate administrative unit for approval. Requirements may vary according to the types of scholarships being offered through the university. For instance, some may be based on geographic location, area of study, grade levels, etc. Specific requirements are determined by the scholarship funding agent. University catalogs generally provide basic information about the types of scholarships offered.   |

| <b>U0613</b>  | <b>Job Description/Classification File</b>  | This series documents the process of describing and classifying university employment positions. This involves monitoring employees' work and how much time each duty consumes. Job descriptions are used to ensure university administration, faculty and staff are aware of their duties, and to evaluate their performance. It serves as a basis or standard for classifying positions throughout the university. It provides a plan that maintains an equitable relationship between the nature of the work, education necessary, experience, the variety and complexity of duties, and responsibilities required by a position. The process may be completed whenever a position is to be established, reclassified or reallocated, and documents the approval or denial of the request. |

| <b>U1300</b>  | <b>Call Response Run Report (Incident Report)</b> | This series documents incidents reported to campus police. Incidents are classified as non-criminal, are regularly responded to by a patrol officer, are routinely closed the same shift and are not given a case number. Incident reports primarily serve as administrative documentation that an incident has been reported to the campus police and what, if any, actions were taken by the campus police.   |
|               | <b>Access Restrictions</b>                        | KRS 61.878 (1)(a) & (h) - Personal information and investigation information. Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>                                   | Series contains: Agency name, call number, reporting officer, call type, date/time, location of incident, names of persons involved, DOB, SSN and contact information and officer narrative.  |
|               | <b>Retention and Disposition</b>                  | Retain for one (1) year, then destroy.  |
| <b>U1302</b>  | <b>Parking Citation Receipt File</b>              | This series documents parking citation receipts received by campus police. On some university campuses, parking violations are paid directly to and administered by campus police. This series documents the fines received by campus police for parking violations. Note: Some colleges and universities may designate other departments/units to administer parking citation receipts.  |
|               | <b>Access Restrictions</b>                        | Universities should consult legal counsel regarding open records matters.   |

| <b>U1704</b>  | <b>Patient Medical File (V)</b>       | This series represents medical records for patients at a university hospital, clinic, or any other university medical facility except psychiatric and dental facilities. Documentation contains sufficient information to identify and assess patients and to furnish evidence of the course of the patient's health care by the provider responsible for the delivery of the care. The record includes documentation of assessments, tests, results and treatment, a description of services rendered, the date rendered, and the service provider's signature. For psychiatric patient files, see Series U0413, Counseling Files, or Series U1700, Patient File - Emergency Psychiatric Services. For dental patient files, see Series U1701, Dental Records - Adults, and Series U1702, Dental Records - Children. |

|               | <b>Contents</b>                       | The medical record contains all the documentation necessary for the health care provided to the patient for/by the health department. Information consists of patient identifying and demographic data; financial eligibility and case management data; social and medical histories; documentation of all nursing, medical, social, educational, nutrition, laboratory and radiology services.   |
|               | <b>Retention and Disposition</b>      | Retain files for patients exposed to hazardous materials until thirty (30) years after date of each exposure, then destroy. Retain files for minors until three (3) years after patient reaches age of majority, then destroy. Retain all other files seven (7) years after last treatment, then destroy.   |
| <b>U1705</b>  | <b>Health and Fitness Record File</b> | This series documents records submitted for participation in health and fitness-related programs offered by the university to students, faculty, staff and the public. The records provide information needed to evaluate an individual's ability to participate so that an appropriate exercise regimen can be developed. The series also documents an individual's consent to participate and releases the university from any liability in connection with the evaluations.  |

| <b>U1800</b>  | <b>Grant Proposal File - Funded</b>             | This series documents the application for and approval of grant funds which may be used for various types of research, instruction, public service, university operations, student affairs and the awarding of scholarships. Grants are applied for from a variety of federal, state, local and private sponsors. Procedures for the submission of proposals for grants may vary from institution to institution. Both faculty and staff can make application for a grant. Generally, proposals are submitted to the Office of Sponsored Programs, or similar unit, for initial review. Depending upon the type of project being proposed, the review process may go through several levels before a final decision is made. The Office also assists in locating funding sources. Financial documentation on funded grants and contracts is generally maintained by the appropriate business affairs/accounting unit.   |

| <b>U1802</b>  | <b>Research Approval Files - Human Subjects</b> | This series documents the application for and authorization of research involving the use of human subjects. All research that involves the use of humans must be approved by the Human Subjects Review Board, or similar entity, including a description of the procedure to be used to gather information from the subjects. A human subject is defined as "a living individual about whom an investigator obtains data through intervention or interaction with the individual, or identifiable private information." The application form is generally completed by the principal investigator and submitted to the Office of Sponsored Programs, or similar unit for initial review. Human participants are those upon whom the principal investigator applies a research technique, (e.g., survey, experimental, evaluation, biomedical research), or many other methods, to elicit data that can be generalized. Examples of activities that constitute research include: 1) any study intended to result in publication or public presentation; 2) any activity resulting in publication or presentation, even though it involves only review of existing data that were collected with no intent to publish; or 3) any use of an investigational drug or device. Human subjects may be used in both basic and applied research projects. |

| U2100  | <b>Master Files (including Master Files that are components of Database Management Systems)</b> | This series consists of organized and consistent sets of information found within a computer file. This information could be the text of a word processing document, the individual data elements found within a database, the data contained in a spreadsheet, or the graphical images on a website. These records could replace, in whole or in part, hard copy administrative records scheduled for disposal under a retention schedule approved by the State Archives and Records Commission. (i.e.: if an agency began creating or receiving electronic reports that had previously been created in paper.) Master files could also consist of the same information that is contained in all or portions of the disposable record(s) it replaces or duplicates. (i.e.: if an agency is imaging paper records) The same retention period and disposal instructions apply to the electronic master file that applied to the previous paper record. Check the Commission-approved schedule to determine the retention period for the master file. Which media version of the records (paper or electronic) an agency should retain depends on a variety of factors such as cost, any potential legal requirements/restrictions, frequency of reference, and the total retention period of the records in question.   |
|        | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.  |
|        | <b>Contents</b>   | These records could consist of the text of a word processing document, the data elements found within a database, or the graphical images on a website.  |
|        | <b>Retention and Disposition</b>  | Retain until after the expiration of the retention period authorized in a Archives-and-Records-Commission-approved records retention schedule for the disposable hard copy file or when no longer useful, whichever is later, then destroy. Which media version of the records (paper or electronic) a university should retain depends on a variety of factors such as cost, any potential legal requirements/restrictions, frequency of reference, and the total retention period of the records in question.  |
| U2144  | <b>Electronic Messages</b>  | This series encompasses any communication using an electronic messaging system for the conduct of agency business. Electronic messaging systems manage and facilitate the sending and receiving of electronic messages with associated attachments and may also allow for calendaring and scheduling of appointments. These systems have become an increasingly important and common communication tool for public agencies. Unified messaging systems allow for a common user in-box for email, voicemail, and text messages allowing users to manage all three from a single point. Use of mobile technologies such as RIM's Blackberry, Personal Digital Assistants (PDA), and web-enabled cell phones enable users to access messages outside of the office setting. Electronic messaging systems such as a listserv allow for broad distribution of messages sent to a single address to multiple recipients. With the ability to attach files to electronic messages, electronic messaging systems have transitioned from simple messaging systems to repositories of public records. Most electronic messages have very limited value and can be deleted immediately upon receipt, but some document agency functions and provide evidence of agency business. The dynamic and often informal nature of electronic messages, coupled with the ease with which electronic messages can be sent and received, can lead to personal and other non-business related messages being mixed with business related messages. Electronic messages should be managed and retained in a manner that protects the integrity of the records and allows for the efficient management of the records over the prescribed retention period. |
|        | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.  |
|        | <b>Contents</b>   | Electronic messages are any message sent or received by an electronic messaging system. Electronic messages may be in the form of electronic mail (email); text messages (such as on a Blackberry or other portable device); voicemail messages (in a voicemail box on a phone, or as an audio file in a unified messaging environment); or faxed messages (faxes are electronically transmitted with a paper output, or may be maintained electronically as an electronic fax.) In addition to the body of the message, text-based messaging systems (email, text messages, faxes and voicemail through a unified system) contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file. Email messages may also include attached files.   |
|        | <b>Retention and Disposition</b>  | Electronic messaging systems are a form of communication. The messages found in these systems can be any type of record. Identify what type of record the message is and retain until the retention period on a State-Archives-and-Records-Commission-approved records retention schedule has been met, then destroy.  |

| U2102  | <b>Data Processing Unit Subject Files</b> | Correspondence, memoranda, reports, publications, and related records used to support the administration of agency data processing services. These records may exist in either paper or electronic form. Note: In some cases, agencies will retain data for extended periods, sometimes off-line. It is essential that they retain related documentation in an accessible format. This is particularly crucial if the documentation is stored in electronic form or the related records are judged to be archival (have long term and secondary research value beyond the agency). When archival electronic records are transferred to the State Archives, it is essential that they be accompanied by relevant and accurate data documentation. EXCLUDING system documentation, this series is covered separately (See Series U2105, U2106, U2108, and/or U2111) |

| <b>U2115 System Backup Files</b>            | This series consists of copies of master files or databases, application software, logs, directories, and other records needed to restore a system in case of a disaster or inadvertent destruction. These backups are usually done on a regular basis and are not intended for recordkeeping purposes. Some backup media should be stored off-site in a secure location. Backups used to document transactions or retained for purposes other than system security should be scheduled separately by the responsible program unit.<br>Note: It is advisable that for many application systems 2 or 3 copies of backups be produced during each cycle. |
| <b>Access Restrictions</b>                  | Universities should consult legal counsel regarding open records matters.  |
| <b>Contents</b>                             | Copies of master files or databases, application software, logs, directories, and other records  |
| <b>Retention and Disposition</b>            | Retain for three (3) system backup cycles, then destroy.   |
| <b>U2116 System Users Access Records</b>    | This series consists of electronic or textual records created to control or monitor individual access to a system and its data. These records are primarily created for security purposes, although some records, particularly user account records, are needed for data processing or fiscal audits. These records may include user account records, security logs, and password files. Computer Usage Records (Series U2117) may also serve some security purposes. (Related records U2117, U2118, U2122, U2124, U2137, U2138, U2140, U2141)   |

| <b>U2119</b>  | <b>Computer Run Scheduling Records</b> | This series is used to schedule computer runs including daily schedules, run reports, run requests, and other records documenting the successful completion of a run. Scheduling records for the current fiscal year may be needed for audits. Information on runs may also be retained in internal system logs, which should be retained with system backup covered by Series U2115 and computer usage records covered by Series U2118.   |
|               | <b>Access Restrictions</b>             | Universities should consult legal counsel regarding open records matters.  |

| <b>U2120</b>  | <b>Input/Source Documents</b>          | This series consists of electronic and paper documents and/or forms designed and used solely to create, update, or modify the records in an electronic medium and not required for audit or legal purposes (such as needed for signatures) and not previously scheduled for retention in an approved agency records retention schedule. May also include electronic records received from another agency and used as input/source records by the receiving agency, EXCLUDING records produced by another agency under the terms of an interagency agreement, or records created by another agency in response to the specific information needs of the receiving agency. Input records retained for fiscal audit or legal purposes, or, containing information needed by a program unit, should be scheduled by the responsible program unit. Input records that document valid transactions are covered by Series U2122. Input records which serve a fiscal audit purpose may be covered by Series in the Fiscal Operations records section of this schedule. |
|               | <b>Access Restrictions</b>             | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                        | Electronic or paper files or records that may contain uncalibrated and unvalidated data, documents to be reformatted into electronic media.  |
|               | <b>Retention and Disposition</b>       | Retain until data have been entered into the master file database and verified; when no longer required to support reconstruction of, or serve as backup to master file or database; or until audit requirements are met, whichever is longest, then destroy.  |
| <b>U2121</b>  | <b>Work/Intermediate Files</b>         | Records used to facilitate the processing of a specific job/run or to create, update, modify, transfer, manipulate, or sort data within an automated system when all transactions are captured in a master file, central file, valid transaction file, or database, and the file is not retained to provide an audit trail. Records Not Covered: Intermediate files retained to document valid transactions, to serve as an audit trail, or needed for system recovery backup.   |
|               | <b>Access Restrictions</b>             | Universities should consult legal counsel regarding open records matters.  |

| <b>U2122</b>  | <b>Valid Transaction Files</b>         | Records used to update and/or document a transaction in database or master file. Valid transaction records are retained to create an audit trail for a master file/database and can be used to recreate a database/master file or document changes in a master file/database for legal admissibility purposes. These records may include valid transaction files, DBMS log, update files, and similar records, and not retained to document a program unit action or for fiscal audit purposes. Records used to document a program unit's actions (e.g., receipt of a voucher, issuance of a check), as opposed to a strictly data processing transaction, or needed for fiscal audit or legal purposes, should be separately scheduled by the responsible program unit. | <b>U2124</b>  | <b>Audit Trail Files</b>                                | Audit trail files consist of data generated during the creation of a master file or database used to validate a master file or database during a processing cycle. Audit files are retained to create a management audit trail for and to ensure the quality of data (quality control). They can aid in recreating or documenting changes in a master file or database for legal admissibility or other purposes by validating the that the system is operating as it is designed to (authentication). Combined with Series U2122, audit trail files may also be used to document that a transaction has taken place, recording date, time, user, etc.. (business tracking/verification)   |

| <b>U2142</b>  | <b>Website Content Records</b>       | This series represents any content on an agency's website that meets the statutory definition of a record [KRS 171.410 (1)], or records that may be generated when a user interacts with the website. Agency websites provide access to records that document an agency's duties and activities. In some cases agencies may be conducting business transactions or providing services to the public through its website. For a growing number of agencies, the website may be the primary point of access to agency records for the general public and agency personnel. Websites may be static with content added and removed on a regular schedule or they may be interactive and dynamic where content is pulled together at the user's request from data in agency databases. Some agency websites are relatively simple collections of the work of the entire agency, or they may be complex with each divisional unit in the agency maintaining a unique collection of pages. Agencies should analyze their websites and determine if the records found on the site are scheduled or a schedule needs to be created for the records. Some websites could contain vital records, especially those sites providing services through the site. Some websites may contain restricted information that is password protected or requires some form of registration to access the site. Agencies need to conduct a risk assessment to determine the level of recordkeeping and security required for website content. |
|               | <b>Access Restrictions</b>           | See function and use. Universities should consult legal counsel regarding open records matters.   |
|               | <b>Contents</b>                      | May contain a variety of records in several formats (text, data, digital image, audio, or video files). Records commonly found on agency websites include: publications (U0109), meeting minutes (U0104), annual reports (U0112), photographs (U0107), press releases (U0108), maps (U0131), organizational charts, policies and procedures (U0124), and mission statements. Websites may also serve as access points for data in agency databases (U2100, Master Files). Agencies need to analyze the content of their websites and inventory the records that are found on the site.  |
|               | <b>Retention and Disposition</b>     | Retain duplicate copies of records until no longer useful, then destroy. Retain official copies until the retention period on a State-Archives-and-Records-Commission-approved records retention schedule has been met, then destroy. Universities that maintain permanent records on their sites should contact KDLA if the records are taken offline.   |

| <b>U2143</b>  | <b>Website Format and Control Records</b> | This series represents the applications automated files, commands and scripts that assist in the creation, design, and operation of a website. Agencies may use a state approved Content Management System (CMS) to control placement of content on a site, update frequency, track version control of individual pages, and manage removal of content. Agencies commonly use a standard template or style sheets to provide background layout and information that ensure uniformity of the "look and feel" of all of the pages on a site. Some websites serve as the main access point to data in agency databases and therefore use specialized applications and commands to pull and arrange that data on command. This series also includes the records that assist in controlling and tracking access to websites and the corresponding content on the site. |
|               | <b>Access Restrictions</b>                | Universities should consult legal counsel regarding open records matters.  |

|               | <b>Retention and Disposition</b>          | Maintain until related website content file, database, or application is no longer in use or has been superseded, or until any administrative, legal, or audit requirements have been met, whichever is longer, then destroy. Note: In some cases universities will retain data for extended periods, sometimes offline. It is essential that they retain related applications and code in an accessible format. This is particularly crucial when the related website content records are judged to be archival. When web related records are transferred to the State Archives Center, it is essential that they be accompanied by the appropriate applications, templates, and controls that allow for an accurate rendering of the content. | U2200  | <b>Donor/Endowment<br/>Records</b> | These records document gifts to the university by organizations, trusts, or private citizens. These gifts are generally monetary, but may also be real estate, property, or other in-kind contributions. Endowment records document money given to the university to support a position, scholarship, professorship, chair, etc. Universities keep an electronic database with donor-related information. Hard copy records (sometimes referred to as donor batch files) are used to create and maintain the master database of gifts, pledges, and bequests. This series also includes batch proof reports, which are reports generated from the main database; and batch status sheets, a form of checklist together with supporting documentation to track entry of gifts into the main database. |

| <b>U2300 Diagnostic Files</b>           | This series documents diagnostic testing performed by laboratory staff at the Center. Cases are generally referred to the Center from veterinarians. Veterinarians submit the specimen with the Accession Report and the specimen is sent to the appropriate section of the laboratory. Testing results are reviewed by pathologists who make a determination and issue a final report. The report is released to the veterinarian. When certain diseases are detected, the report must also be sent to the State Veterinarian's Office in the Kentucky Department of Agriculture. Information from the accession form and the test results is entered into the Laboratory Information Management System (LIMS). This data can be extracted in summary formats for reporting and research purposes. An initiative is underway to provide a real time connection from the State Veterinarian's Office to the LIMS database. This data sharing is to be a part of the Kentucky Herds Identification project to provide constant monitoring and rapid detection of disease outbreaks. The diagnostic labs are a service provider and not the final custodian of the diagnostic reports.  |
| <b>Access Restrictions</b>              | KRS 61.878(1)[c]. Universities should consult legal counsel regarding open records matters.   |
| <b>Contents</b>                         | Accession Report; test results from samples; final report; correspondence; may contain notes specific to the particular lab running the tests.  |
| <b>Retention and Disposition</b>        | Retain until five (5) years after the final case report is produced, then destroy.  |
| <b>U2301 Quality Control Files</b>      | This series documents the quality of day-to-day operations at the Center. These materials are used to report to the American Association of Veterinary Laboratory Diagnosticians (AAVLD), which is the accreditation agency. The file documents such issues as continuing education on the part of the employees, the status of equipment and the implementation of records management within the Centers. The basic organizational components of the AAVLD "Quality System" are drawn from ISO 9000 standards. There are also performance standards drawn from ISO 15189 (medical organizations) and ISO 17025 (environmental organizations). The operations quality monitoring process is also used for internal agency management reviews. Upon determination of any performance lags, this series will also document corrective actions taken by the Center. Accreditation audits are conducted every five (5) years.   |
| <b>Access Restrictions</b>              | Universities should consult legal counsel regarding open records matters.   |
| <b>Contents</b>                         | This series may contain forms, logs and worksheets documenting quality measurements, equipment maintenance and calibration. Also included could be periodic activity reports, customer complaints, photos or other documentary evidence, correspondence and accreditation certificates.   |
| <b>Retention and Disposition</b>        | Retain for five (5) years, then destroy.  |
| <b>U2302 Test Validation Records</b>    | This series documents that new or updated diagnostic test procedures give as good or better results than the standard tests currently in use. Tests must be "normed" against established national standards so that there is a very high probability that the results of a test will be consistent. The validation of a test procedure is done when there is a new test created by researchers and scientists, or an upgraded version of a test is made available by a vendor. Parallel studies are done with the established test procedure and the new procedure using known values that should produce exactly the same results. If a statistical analysis of multiple tests shows that there is no significant variation in the results gained by the two testing methods, the newer test is considered to be validated for that particular use. An existing test may be modified in some aspect of its procedure and this must also be validated against an established standard to determine if the results are consistent. Each laboratory section is responsible for validating the new or modified tests it uses. This is not a common occurrence, but it is important to stay current with the research and testing being done in the diagnostic field and to take advantage of new developments. An example of a new test method that has been validated in some situations is using biochemical reactions in a test environment to determine the presence of bacteria rather than growing a sample on a culture plate for visual or microscopic identification. |
| <b>Access Restrictions</b>              | Universities should consult legal counsel regarding open records matters.   |
| <b>Contents</b>                         | This series contains the actual data used in the test validation and summary reports generated from the data. The types of data and formats will vary based on the nature of the test procedure.  |
| <b>Retention and Disposition</b>        | Retain test results for seven (7) years after the validated test has been phased out and is no longer used, then destroy.   |

| U2304  | <b>Proficiency Testing Reports</b>     | This series documents how accurately an unknown sample is identified by a laboratory. Testing is carried out by a Diagnostic Center laboratory on a sample or specimen provided by a national source as part of quality assurance measuring for accreditation. A number of laboratories receive exactly the same type of specimen and are to perform exactly the same test, without knowing in advance what values are to be expected. Actual test results are compared across the different labs and any significant deviation in results can prompt further review of a labs' procedures by Center management or the American Association of Veterinary Laboratory Diagnosticians which accredits the Centers. Proficiency testing of this type for quality assurance is done for many different laboratory settings, including hospitals.   |
|        | <b>Access Restrictions</b>             | Universities should consult legal counsel regarding open records matters.  |
|        | <b>Contents</b>                        | This series contains the reports of various external professional organizations that provide the samples for testing and prepare comparisons of the results obtained by the laboratories. The organizations include the Veterinary Laboratory Association, the National Veterinary Services Laboratory, the Animal and Plant Health Inspection Service, the American Association of Bioanalysts and the College of American Pathologists.  |
|        | <b>Retention and Disposition</b>       | Retain until after accreditation in most current cycle is received, then destroy.  |
| U2305  | <b>Regulatory Testing Report Forms</b> | This series documents that a horse is free from specific diseases monitored by the Department of Agriculture. To sell a horse by consignment in Kentucky, or to transport a horse into or out of Kentucky, laboratory tests are required to determine if infectious diseases are present. The test(s) required depend on the type of horse (mare, racing, etc.). The report form in this series serves as a certificate that the animal does not have a reportable infectious disease and is in effect for one year. The form is four parts with the original going to the owner and a copy being retained by the testing laboratory for a short period of time in the event the owner, the referring veterinarian, or a state agency would need a replacement. A perforated seal is part of the certification to prevent altering and copying of forms when presented to sales agents, transporters or owners. Specimens and samples associated with a test are held for 30 days. This is a high volume series of tests, with over 5,000 being done in a sales season for Keeneland. Standards related to disease reporting and control in animals are promulgated by the Organization of Epizootic Infectious Diseases (OEI). This organization serves a similar function in the animal field as the United Nations World Health Organization (WHO). |
|        | <b>Access Restrictions</b>             | KRS 61.878(1)(c)1. Universities should consult legal counsel regarding open records matters.   |
|        | <b>Contents</b>                        | This series is carbonated copies of the test reports for Equine Infectious Anemia (EIA), Equine Viral Arteritis (EVA), Contagious Equine Metritis (CEM), the "Coggins" test (which is a screening for Brucellosis) and other reports required by regulation.   |
|        | <b>Retention and Disposition</b>       | Retain until two (2) years after report is produced, then destroy.   |

| <b>U2400</b>  | <b>Diagnostic Files (V)</b>          | This series documents diagnostic testing performed by laboratory staff at the Plant Disease Diagnostic Laboratory (PDDL). Cases are generally referred to the PDDL from county extension agents. Agents submit the specimen along with the Plant Disease Identification Form. Testing results are reviewed by diagnosticians who make a determination and issue a final report. Upon release, the original copy of the report is sent to the grower and a copy is maintained by the laboratory and the agent. When certain diseases are detected, the report must also be sent to the State Plant Health Director and the State Plant Health Regulatory Official. They may report this information to the United States Department of Agriculture Animal and Plant Health Inspection Service. Information from the Plant Disease Identification Form and the test results are entered into the laboratory database. These data can be extracted in summary formats for reporting and research purposes. Periodically, data are uploaded to the National Plant Diagnostic Network database. |

| U2600  | <b>Federal Communications Commission (FCC) Authorizations and Related Materials</b> | This series represents instruments issued by the FCC that authorize broadcasting or other use of radio transmissions by individuals or companies as required by 47 CFR 73.3527(e)(1). The series also include licenses and permits to construct or modify broadcast facilities.  |
|        | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.  |
|        | <b>Contents</b>   | Series may contain: station's frequency, call letters, operating power, transmitter location, special conditions imposed by the FCC on the station's operation, license issuance and expiration dates. Also contains documents necessary to reflect any modifications or conditions that the FCC has placed on the authorization.  |
|        | <b>Retention and Disposition</b>  | Retain until replaced by a new authorization, then destroy.  |
| U2601  | <b>Federal Communications Commission (FCC) Applications and Related Materials</b>   | This series documents the Federal Communications Commission (FCC) application process, as required by 47 CFR 73.3527(e) (2), for licensing; construction permits or special operating authority; or consent to the sale of a broadcast facility.   |
|        | <b>Access Restrictions</b>  | Universities should consult legal counsel regarding open records matters.  |
|        | <b>Contents</b>   | Any application submitted for filing with the FCC and related materials. May include application for consent to the assignment of construction permit or license and supporting documents and/or exhibits, and copies of the FCC decisions pertaining to the application; statements reflecting petition to deny filings, including the name and address of filing party; and consent to the sale of an existing broadcast facility.   |
|        | <b>Retention and Disposition</b>  | Retain in the FCC Public Inspection file until final action has been taken on the application. Retain new construction permits and license transfer granted pursuant to a waiver showing until the permit or the waiver is no longer in effect. Retain short-term license renewal applications until final action has been taken on the subsequent license renewal application.  |
| U2602  | <b>Contour Maps</b>   | This series covers graphical representations of the area in which a broadcast station provides a particular level of over-the-air signal strength. These maps are required by 47 CFR 73.3527(e)(3) and are submitted with any application tendered for filing with the Federal Communications Commission. They provide general indications of where service is expected to be received from the station but do not account for the availability of a station's signal carried by cable or satellite service providers. |

| <b>U2604</b>  | <b>Political Advertisement File</b>            | This series, required by 47 CFR 73.3527(e)(5), documents all requests for specific schedules of advertising time by candidates for public office and certain issue advertisers, as well as the final dispositions or "deals" agreed to by the broadcaster and the advertiser in response to any requests. The licensee or applicant must post all of the contents added to its political file in the political file component of its online public file hosted by the Federal Communications Commission. Commercial radio stations in the top fifty radio markets as defined by Nielsen Audio (formerly Arbitron) that have five or more full-time employees began uploading their public and political files on June 24, 2016. All other radio stations are exempt from online filing until March 1, 2018, when they will begin uploading new public and political files to the online site on a going-forward basis. On that date, these stations must also have uploaded to the online file all existing public file material, with the exception of existing political files which stations are permitted, but not required, to upload to the online public file. Existing political files must be retained, either in the local public file or in the Commission's online public file, until the end of the retention period. All television stations have transitioned their political file material to the online file as of July 1, 2014. |

|---------------|---|--|
| <b>U2610</b>  | <b>FCC Investigation or Complaint Materials</b> | This series documents evidence collected and steps taken during Federal Communications Commission (FCC) investigations or complaints made to the FCC, as required by 47 CFR 73.3527(e)(11). This is material that has a substantial bearing on an FCC investigation or complaint to the FCC involving a station and of which the station is aware. Some or all of the material in this Series may be excluded from the public file at the Commission's direction (for example, Letters of Inquiry from the Enforcement Bureau should be excluded in order to protect the investigation process).         |
|               | <b>Access Restrictions</b>                      | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                                 | Series may include, but is not limited to: Complaints; letters of Inquiry from the Enforcement Bureau; related documentation or correspondence; Notice of Apparent Liability for Forfeiture; Order denying the complaint.  |
|               | <b>Retention and Disposition</b>                | Retain until notified in writing by the FCC that the material may be discarded, then destroy.  |
| <b>U2611</b>  | <b>Station Logs</b>                             | This series, as required by 47 CFR 73.1820 and 47 CFR 73.1840, documents log entries that indicate whether station equipment is operating within its proper parameters. These entries are made either by a person designated by the licensee or by an automatic device. Required indications of operating parameters must be logged prior to any adjustments to equipment. When values are outside of the prescribed tolerance, the corrected indications must be logged and accompanied by a notation describing the nature of the corrective action.   |
|               | <b>Access Restrictions</b>                      | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                                 | Series contains either manual or automated entries recording the actual time of each observation, any corrected indications and, if required, the nature of the corrective action.   |
|               | <b>Retention and Disposition</b>                | Retain logs involving communications related to a disaster or communications related to or involved in an investigation by the FCC, and about which the licensee has been notified, until specifically authorized in writing by the FCC to destroy them. Retain logs related to or involved in any claim or complaint of which the licensee has notice until such claim or complaint has been fully satisfied or until it has been barred by statute limiting the time for filing of suits upon such claims. Retain other logs required to be kept by station licensees for two (2) years, then destroy. |
| <b>U2612</b>  | <b>Sponsorship/Underwriter Files</b>            | This series represents an announcement, per 47 CFR 73.1212, stating that broadcast matter was sponsored, paid for or furnished fully and the true identity of the person or persons, corporation, committee, association, unincorporated group, or other entity by whom or on whose behalf such payment is made or promised, or from whom or on whose behalf such services or other valuable consideration is received, or by whom the material or services referred is fairly disclosed.  |
|               | <b>Access Restrictions</b>                      | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                                 | Series may contain the contract with the underwriter, the underwriter approved script read on air acknowledging the sponsorship and any related documentation.   |
|               | <b>Retention and Disposition</b>                | Retain contracts until three (3) years after the broadcast, then destroy. Retain other materials until two (2) years after broadcast, then destroy.  |
| <b>U2613</b>  | <b>Must-Carry Requests</b>                      | This Series represents statements required by 47 CFR 73.3527(e)(12) of a non-commercial television station's decision to be carried on multichannel video program distributor (MVPD) systems, such as a cable system or direct broadcast satellite service. This decision may come about through either negotiated retransmission consent agreements or by mandatory carriage under the Commission's rules.  |
|               | <b>Access Restrictions</b>                      | Universities should consult legal counsel regarding open records matters.  |
|               | <b>Contents</b>                                 | Dated statement(s) of election.  |
|               | <b>Retention and Disposition</b>                | Retain for duration of election or request period, then destroy.   |

### *Kentucky Community & Technical College System*

#### **System Office Student Services**

**System Description:** Hyland OnBase is an imaging and document management system used by the sixteen colleges and the System Office of the Kentucky Community & Technical College System. These offices use OnBase for scanning, storage, workflow, and access to electronic forms. Documents from the offices of Student Records, Admissions, Fire Commission, Human Resources, the Business Office, Treasury, Financial Aid, and Veterans' Office are scanned, indexed, and stored by staff from all sixteen colleges, the Fire Commission Office, and the System Office. The software is managed and maintained by the System Office of KCTCS. Some information contained in this system is restricted per KRS 61.878 (1)(a).

**System Contents:** Hyland OnBase may contain: applications, transcripts, training records, personnel records, financial aid forms, rosters, certifications, safety inspections, tax information, financial information, and billing statements.
