For most counties we also have civil and criminal order books. These contain court entries, including judgements. If we do not have the case files, we can often find at least some information in the order books.

Some early case files may not be the same standard civil or criminal case files as the later case files, nor do they all have indexes or a specific order.

* Jefferson County civil case files around 1933 to 1982 are on film or are being filmed in Jefferson County. Criminal cases from 1954-1967 are also still there. We do have the microfilm of the criminal cases from 1967-1985 but we do not have an index. We need the case number from the clerk's office to find the cases. You will need to contact the Jefferson County Archives and Records at (502) 595-3034 for access to the film and indexes.

** Nelson County retained many of their original records.

For those counties whose files after 1977 are here we do not have the indexes. We will need the case number, location in center, and box number from the Circuit Clerk's Office before we can access those files.
