INTRODUCTION

The Statistical Report of Kentucky Public Libraries, Fiscal Year 2014-2015 contains information taken from the Annual Report of Public Libraries. The statistical report is separated into seven sections:

- A summary of library statistics for the most recent year, and comparisons with the three prior years.
- A series of charts listing the top counties in various per capita library measures.
- County by county library statistics in 92 categories. **Items #84 and #85, Total Number of Programs and Total Program Attendance, are added to the report this year.**
- A select group of statistics arranged in order of county population. Counties are also ranked in the selected statistics section. **Total Number of Programs and Total Program Attendance are newly added in this section.**
- A glossary of terms used.
- A special section of statistics, including county ranks, is offered again this year. **A new calculation is added to this report: Total Circulation, % Increase Over Previous Year.** Check out these interesting ways to measure your library, on pages 68 to 79.
- A revised list of recommended links to web sites devoted to public library statistics is on page 80.

Note that Carter County relocated the Olive Hill library. Their statistics reflect six months of operation for this facility.
