## INTRODUCTION

The Statistical Report of Kentucky Public Libraries, Fiscal Year 2018-2019 contains information taken from the Annual Report of Public Libraries. The statistical report is divided into seven sections:

- **A summary of library statistics for the most recent year, and comparisons with the three prior years.**
- **A series of charts listing the top counties in various per capita library measures.**
- **County by county library statistics in 92 categories. Two items are added to the report this year: **#45, Young Adult Book Collection, and #59, Young Adult Book Circulation.****
- **A select group of statistics arranged in order of county population. Counties are also ranked in the selected statistics section.**
- **A glossary of terms used.**
- **A special section of statistics, including county ranks, is offered again this year. Check out these interesting ways to measure your library, on pages 76 to 87.**
- **A revised list of recommended links to web sites devoted to public library statistics is on page 88.**
